

1. Record Nr.	UNINA9910828767603321
Autore	Ali Meser M
Titolo	Brain Tumor Imaging // by: Jain, Rajan, Essig, Marco
Pubbl/distr/stampa	New York, [New York] : , : Thieme, , 2016 ©2016
ISBN	1-63853-243-5 1-60406-830-2
Descrizione fisica	1 online resource (262 pages) : illustrations (some color)
Disciplina	616.99/481
Soggetti	Brain - Tumors - Diagnosis Brain - Cancer
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Conventional morphologic imaging : MRI remains the workhorse -- Benjamin Cohen, Inna Nutanson, and Girish M. Fatterpekar -- Response assessment in neuro-oncology / Tom Mikkelsen and Tobias Walbert -- Going beyond the conventional morphologic imaging : an overview of functional imaging techniques / Marco Essig and Cem Calli -- Perfusion imaging : DSC MR perfusion / Marco Essig, Joseph Puig Alcantara, and Cem Cali -- Perfusion imaging : dynamic contrast enhanced T1-weighted MRI (DCE-MRI) perfusion / David Fussell and Robert J. Young -- Perfusion imaging : arterial spin labeling / S. Ali Nabavizadeh, Suyash Mohan, Jeffrey M. Pollock -- Perfusion imaging : CT perfusion / Brent Griffith and Rajan Jain -- Diffusion weighted imaging for gliomas / Benjamin M. Ellingson, Bryan Yoo, and Whitney B. Pope -- Diffusion tensor imaging / Bram Stieltjes and Peter Neher -- Functional MRI and diffusion tensor imaging with tractography / Anna Knobel and Robert J. Young -- Metabolic imaging : MR spectroscopy / Isabella Bjorkman-Burtscher and Pia C. Sundgren -- Molecular imaging : PET and SPECT / Asim K. Bag and Samuel E. Almodovar -- It's not just the tumor : treatment effects / Brent Griffith and Rajan Jain -- It's not just the tumor : CNS paraneoplastic syndromes and cerebrovascular complications of cancers / Prashant Nagpal and Rajan Jain -- Image guided neurosurgery : intraoperative MRI / Ian Y. Lee -- On the horizon

: ultra-high-field MR / Steffen Sammet and Alexander Radbruch -- On  
the horizon : tumor genomics / Rivka R. Colen, Faisal Tai, and Pascal O.  
Zinn -- On the horizon : going beyond the conventional MR contrast  
agents / Josep Puig and Wilson B. Chwang -- On the horizon :  
molecular imaging / Sanath Kumar, Meser M. Ali, and Ali Syed Arbab.
