

1. Record Nr.	UNINA9910828862603321
Autore	Simpson Patrick K
Titolo	ExamInsight for installing, configuring, and administering Microsoft Windows 2000 Directory Services infrastructure examination 70-217 [[electronic resource] /] / Patrick Simpson
Pubbl/distr/stampa	Friendswood, Tex., : TotalRecall Publications, Inc., c2003
Edizione	[1st ed.]
Descrizione fisica	1 online resource (256 pages)
Collana	InsideScoop to IT certification series
Disciplina	005.4/4769/076
Soggetti	Electronic data processing personnel - Certification Microsoft software - Examinations Directory services (Computer network technology) - Examinations Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"CD-ROM practice exam provided by BeachFront Quizzer." Includes index. Title from title screen.
Nota di contenuto	Intro -- Table of Contents -- ExamInsight For Exam 70-217 -- About the Author -- About the Book -- Introduction -- Foreword -- How to Read This Book -- Exam 70-217 Preparation Guide -- Skills Needed -- Basic Networking Terminology Needed for This Book -- Chapter 1: Windows 2000 Active Directory Services -- Getting Ready - Questions -- Getting Ready - Answers -- I Introduction -- II Components of the Active Directory Service -- DNS -- Domains -- Domain Controllers -- Objects -- Users -- Groups -- OUs -- Trees -- Forests -- Schema -- Global Catalog -- III Mixed and Native Mode -- IV Operations Master Roles -- PDC Emulator -- Relative identifier (RID) Master -- Infrastructure Master -- Domain Naming Master -- Schema Master -- V Chapter 1: Summary -- VI Chapter 1: Post-Assessment -- VII Chapter 1: Exercises -- Lab 1.1 - Installing Windows 2000 Active Director -- Goal: -- Chapter 2: Using DNS With Active Directory Service -- Getting Ready - Questions -- Getting Ready - Answers -- I Introduction -- II DNS for Active Directory -- Installing and Configure DNS for Active Directory. -- Create and Configure DNS Records -- Integrate an Active

Directory DNS with Existing DNS -- Configure Zones for Dynamic Updates and Secure Dynamic Updates -- III DNS -- DNS for Active Directory. -- Manage replication of DNS data. -- IV Chapter 2: Summary -- V Chapter 2: Post-Assessment -- VI Chapter 2: Exercises -- Lab 2.1 - Installing Windows 2000 DNS -- Goal: -- Chapter 3: Configuration Management -- Getting Ready - Questions -- Getting Ready - Answers -- I Introduction -- II Implement and Troubleshoot Group Policy -- Create a Group Policy Object (GPO). -- Link an Existing GPO. -- Delegate Administrative Control of Group Policy -- Modifying Group Policy inheritance -- Filter Group Policy Settings -- Modify Group Policy Prioritization -- III Using Group Policy. Creating Security Configurations -- Analyze Security Configurations -- Implement an audit policy -- III Security Events -- Monitoring and Analyzing Security Events -- IVChapter 5: Summary -- V Chapter 5: Post-Assessment -- VI Chapter 5: Exercises -- Lab 5.1 - Importing Security Templates into Group -- Goal: -- Appendix A: Answers -- Chapter 1: Post-Assessment -- Chapter 2: Post-Assessment -- Chapter 3: Post-Assessment -- Chapter 4: Post-Assessment -- Chapter 5: Post-Assessment -- Index -- Money Back Book Guarantee -- Microsoft 70-217 Practice Exam Offer.

Sommario/riassunto

The Man in the Chimney by Betty Vaughn is a Civil War story of an unlikely and troubled romance between a New York Calvary officer in Union occupied New Bern, and the Lenoir County woman who saves his life. The War Between the States comes to eastern North Carolina bringing hardships, pillaging, and fear to the local residents. For those left at home the struggle to procure the needs of daily life is all-consuming. For those serving in the armies of both North and So.
