

1. Record Nr.	UNINA9910828944003321
Autore	Humberstone Barbara
Titolo	Research methods in outdoor studies // edited by Barbara Humberstone and Heather Prince
Pubbl/distr/stampa	London ; ; New York, New York : , : Routledge, , [2020] ©2020
ISBN	0-429-19900-7 0-429-58162-9 0-429-58352-4
Descrizione fisica	1 online resource (375 pages)
Collana	Routledge advances in outdoor studies
Disciplina	796.5
Soggetti	Outdoor recreation - Study and teaching Outdoor recreation - Research Environmental education - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Entangled philosophical and methodological dimensions of research in outdoor studies? Living with(in) messy theorisation -- Ethical issues and practicalities in outdoor studies research -- Designing effective research projects in outdoor studies -- Phenomenological approaches to research in outdoor studies -- A critical examination of the place of interviews in outdoor studies research -- Methods and techniques for capturing empirical material from experiences and stories in outdoor spaces and places -- Mobilising research methods: sensory approaches to outdoor and experiential learning research -- Capturing complexity and collaborative emergence through case study design: an ecosocial framework for researching outdoor sustainability education practice -- Ethnographic research in outdoor studies -- Autoethnography: creating stories that make a difference -- Thinking the social through myself: reflexivity in research practice -- Finding my professional voice: autobiography as a research method for outdoor studies -- Creative non-fiction in outdoor studies -- Shared-story approaches in outdoor studies: the HEAR (hermeneutics, auto/ethnography and action research) "listening" methodological model -- Digital narrative

methodology and multisensory outdoor ethnography -- Practising feminist reflexivity: collaborative letter writing as method -- Post-qualitative inquiry in outdoor studies: a radical (non-)methodology -- Together along the way: applying mobilities through praxis in outdoor studies field research -- Mobile methods in outdoor studies: walking interviews with educators -- Sensing the outdoors through research: multisensory, multimedia, multimodal and multiliteracy possibilities -- Representing experience: creative methods and emergent analysis -- Deriving metrics & measures in outdoor research -- Scientific investigations in outdoor environments -- Mixed methods research in outdoor studies: paradigmatic considerations -- Mixed methods research in outdoor studies: practical applications -- Quantitative analyses of small samples with complex data-structures -- Publishing and disseminating outdoor studies research -- Research hubs: the theory-practice nexus -- Knocking on doors in the policy corridor: can research in outdoor studies contribute to policy change? A professional narrative on shaping educational policy and practice in Scotland.

---

Sommario/riassunto

"Over the last two decades Outdoor Studies has emerged as an innovative and vibrant field of study. This is the first book to offer a comprehensive appraisal of established and cutting-edge research methods as applied to Outdoor Studies. Covering qualitative, quantitative and mixed methods, the book examines key methodologies, themes and technologies such as digital research, mobile methodologies, ethnography, interviews, research design, research ethics and ways of disseminating research. Featuring contributions from leading researchers from a variety of disciplinary backgrounds, this is an essential text for any Outdoor Studies course or for researchers looking for innovative and creative research techniques"
