Sommario/riassunto	In A Historical Study of Anselm's Proslogion , Toivo J. Holopainen offers a new overall interpretation of Anselm's Proslogion by providing an historical explanation for the distinctive combination of argument and devotion that this treatise exhibits. Part 1 clarifies Anselm's outlook on the central arguments in the treatise by offering a careful analysis of the 'single argument', the discovery of which Anselm announces in the preface. Part 2 reassesses the conflicting views about faith and reason in the immediate background of the Proslogion (the Eucharistic controversy, the publication of the Monologion). Part 3 examines the Proslogion from a rhetorical perspective and argues that applying the 'single argument' in a devotional setting constitutes a subtle attempt to affect the audience's ideas about method in theology.
