Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Shadow of the Sun -- The Game -- The Virgin in the Garden and Still Life -- Sugar and Other Stories -- Possession: a Romance -- Angels and Insects -- The Matisse Stories -- The Djinn in the Nightingale's Eye: Five Fairy Stories -- Elementals: Stories of Fire and Ice -- The Biographer's Tale -- Babel Tower and a Whistling Woman.
Sommario/riassunto	Campbell presents a comprehensive critical reading of Byatt's fiction from The shadow of the sun and The game, published in the 1960's, to A whistling woman (2002). The book begins with an overview of Byatt's writing and, drawing on her interviews and essays, sets forth the critical principles that inform the novelist's works. Following this introduction is a chronically structured account of the novels and short stories tracing Byatt's literary development. Campbell employs a critical perspective appropriate to the author's individualistic feminist stance, stressing the breadth of Byatt's intellectual concerns and her insistence on placing her female characters in a living, changing context of ideas and experience, especially in their search for creative voice.

2. Record Nr.	UNINA9910829025103321
Autore	Rubei Elena
Titolo	Algebraic geometry : a concise dictionary // Elena Rubei
Pubbl/distr/stampa	Berlin, [Germany] ; ; Boston, [Massachusetts] : , : De Gruyter, , 2014 ©2014
ISBN	3-11-037088-3
Descrizione fisica	1 online resource (240 p.)
Classificazione	SK 240
Disciplina	516.3/503
Soggetti	Geometry, Algebraic
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front matter -- Preface -- Notation -- Bibliography -- List Of Terms
Sommario/riassunto	Algebraic geometry is one of the most classic subjects of university research in mathematics. It has a very complicated language that makes life very difficult for beginners. This book is a little dictionary of algebraic geometry: for every of the most common words in algebraic geometry, it contains its definition, several references and the statements of the main theorems about that term (without their proofs). Also some terms of other subjects, close to algebraic geometry, have been included. It was born to help beginners that know some basic facts of algebraic geometry, but not every basic fact, to follow seminars and to read papers, by providing them with basic definitions and statements. The form of a dictionary makes it very easy and quick to consult.
