

1. Record Nr.	UNINA9910829110803321
Titolo	Atlas of Operative Oral and Maxillofacial Surgery // edited by Christopher J. Haggerty, Robert M.Laughlin ; contributors, Stephen G. Alfano [and eighty others]
Pubbl/distr/stampa	Ames, Iowa : , : Wiley Blackwell, , 2015 ©2015
ISBN	9781118938393 1-118-93839-9 1-118-99372-1 1-118-93840-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xviii, 550 pages) : illustrations (chiefly color)
Disciplina	617.522059
Soggetti	Mouth - Surgery Maxilla - Surgery Face - Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part One Dentoalveolar and Implant Surgery -- Part Two Odontogenic Head and Neck Infections -- Part Three Maxillofacial Trauma Surgery -- Part Four Orthognathic and Craniofacial Surgery -- Part Five Temporomandibular Joint Surgery -- Part Six Facial Cosmetic Surgery -- Part Seven Pathology and Reconstructive Surgery
Sommario/riassunto	Atlas of Operative Oral and Maxillofacial Surgery is an innovative, multidisciplinary, contemporary surgical atlas covering core aspects of oral and maxillofacial surgery, head and neck reconstructive surgery and facial cosmetic surgery. The text is constructed as a procedure-based surgical atlas with special emphasis placed on depicting surgical techniques with high-resolution color illustrations and images. Chapters are written by experts in their field and are designed to provide high-yield information pertaining to procedure indications, contraindications, pertinent anatomy, techniques, post-operative management, complications and key points. Each chapter concludes

with a detailed photographic case report illustrating pertinent procedure specifics such as locations for incisions, anatomical planes of dissection, key steps in the procedure, radiographs findings and pre- and postoperative photographs. Procedures are organized by sections to include: dentoalveolar and implant surgery, odontogenic head and neck infections, maxillofacial trauma surgery, orthognathic and craniofacial surgery, temporomandibular joint surgery, infections of the head and neck, facial cosmetic surgery, and pathology and reconstructive surgery. The combination of concise text, more than 1,000 color clinical illustrations and images, and case reports makes the *Atlas of Operative Oral and Maxillofacial Surgery* a key reference to all oral and maxillofacial surgeons, head and neck surgeons, and facial plastic surgeons and will serve as a foundation for residency training, board certification and the recently implemented recertification examinations.
