

1. Record Nr.	UNINA9910829148603321
Titolo	Human subjects research regulation : perspectives on the future // edited by I. Glenn Cohen and Holly Fernandez Lynch
Pubbl/distr/stampa	Cambridge, Massachusetts : , : The MIT Press, , [2014] ©2014
ISBN	0-262-32082-7
Descrizione fisica	1 online resource (393 p.)
Collana	Basic bioethics
Disciplina	174.2/8
Soggetti	Human experimentation in medicine - Evaluation Human experimentation in medicine - Law and legislation Medical ethics Clinical trials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Sommario/riassunto	The current framework for the regulation of human subjects research emerged largely in reaction to the horrors of Nazi human experimentation and the Tuskegee syphilis study. This framework, combining elements of paternalism with efforts to preserve individual autonomy, has remained fundamentally unchanged for decades. Yet, as this book documents, it has significant flaws. Invigorated by the U.S. government's first steps toward change in over 20 years, the book brings together leading thinkers in this field from ethics, law, medicine, and public policy to discuss how to make the system better.
