Sommario/riassunto

Take an in-depth look at what works?and what doesn't?in research with
GLBT populations! This essential book examines the usefulness of
current frameworks for research with GLBT populations and highlights
the necessity for greater complexity in the conceptualization and
design of research with these populations. It will help you understand
the need for more inclusive and representative samples and the need to
protect the privacy of GLBT research participants-and ways to
accomplish these goals. In addition, Research Methods with Gay,
Lesbian, Bisexual, and Transgender Populations consid
