

1. Record Nr.	UNINA9910829170803321
Titolo	Development of the vascular system // [editors: Jonathan Nugent (organizer) and Maeve O'Connor]
Pubbl/distr/stampa	London, : Pitman Newark, N.J., : Distributed in North American by CIBA Pharmaceutical Co. (Medical Education Department), 1983
ISBN	9786613694485 9781280784095 1280784091 9780470720813 0470720816 9780470718513 047071851X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (266 p.)
Collana	Ciba Foundation symposium ; ; 100
Altri autori (Persone)	NugentJonathan O'ConnorMaeve
Disciplina	573.216
Soggetti	Morphogenesis Cardiovascular system Developmental biology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Symposium on Development of the vascular system, held at the Ciba Foundation, London, 11-13 January 1983"--Contents page.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Development of the vascular system; Contents; Chairman's introduction; Control of early embryonic heart morphogenesis: a hypothesis; Discussion; Patterns of vascularization in the developing cerebral cortex; Discussion; The pattern of elastin in the aorta and large arteries of mammals; Discussion; 'Structural autoregulation'-the local adaptation of vascular beds to chronic changes in pressure; Discussion; Physical factors and angiogenesis; Discussion; General discussion I; Vascularization of experimental tumours; Discussion; Role of mast cells in experimental tumour angiogenesis; Discussion The role of heparin in angiogenesisDiscussion; Degradation of basement membrane components by vascular endothelial cells: role in

neovascularization; Discussion; Inhibition of neovascularization by a cartilage factor; Discussion; General discussion II; Tumour angiogenesis factors; Endothelial cell markers; Morphogenesis; General discussion III; Endothelial cell regeneration in hypertension and hypercholesterolaemia; A hypothesis of atherogenesis; Pathological vascularization of the coronary intima; Discussion; Maldevelopments of the vascular system: clinical conundrums; Discussion

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
