Sommario/riassunto	For children to thrive. they must make good developmental progress from birth until the end of adolescence. Addressing the social determinants of developmental problems, this volume offers a broad, contextualised understanding of the factors that impact on children and adolescents in Africa. Unlike other works on the subject, it is Africa-wide in its scope, with case studies in Ethiopia, Kenya, Malawi, Nigeria, Rwanda, and South Africa. Covering mental health as well as physical and social development, it looks at policies and practice, culture and priorities for research, identifying challenges, and proposing solutions.
