

1. Record Nr.	UNINA9910829872103321
Autore	Jackson Peter G. G
Titolo	Clinical examination of farm animals [[electronic resource] /] / by Peter G.G. Jackson & Peter D. Cockcroft ; illustrations by Samantha Elmhurst
Pubbl/distr/stampa	Oxford, UK ; ; Malden, MA, USA, : Blackwell Science, c2002
ISBN	1-280-21300-0 9786610213009 0-470-70891-3 0-470-75242-4 1-4051-4739-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (321 p.)
Altri autori (Persone)	CockcroftPeter D
Disciplina	636.0896075
Soggetti	Veterinary medicine - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 300).
Nota di contenuto	Clinical Examination of Farm Animals; Contents; Preface; Acknowledgements; Part I Introduction; 1 Principles of Clinical Examination; Part II Cattle - Clinical Examination by Body System and Region; 2 The General Clinical Examination of Cattle; 3 Clinical Examination of the Lymphatic System; 4 Clinical Examination of the Skin; 5 Clinical Examination of the Head and Neck; 6 Clinical Examination of the Cardiovascular System; 7 Clinical Examination of the Respiratory System; 8 Clinical Examination of the Gastrointestinal System; 9 Clinical Examination of the Urinary System 10 Clinical Examination of the Female Genital System 11 Clinical Examination of the Male Genital System; 12 Clinical Examination of the Udder; 13 Clinical Examination of the Musculoskeletal System; 14 Clinical Examination of the Nervous System; Part III Sheep; 15 Clinical Examination of the Sheep; Part IV Pigs; 16 Clinical Examination of the Pig; Part V Goats; 17 Clinical Examination of the Goat; Bibliography; Appendix 1 Normal Physiological Values; Appendix 2 Laboratory Reference Values: Haematology; Appendix 3 Laboratory Reference Values: Biochemistry; Index
Sommario/riassunto	Clinical examination is a fundamental part of the process of veterinary

diagnosis. Without a proficient clinical examination and an accurate diagnosis it is unlikely that the treatment, control, prognosis and welfare of animals will be optimised. This book will assist veterinary students in their understanding of farm animal clinical examination and act as a quick reference for clinicians who are called upon to examine an unfamiliar species. It will also provide a more detailed account for experienced clinicians in their continuing professional development. The authors provide a simple,
