

1. Record Nr.	UNINA9910829907303321
Titolo	Advances in enzymology . Volume 59 : and related areas of molecular biology / / edited by Alton Meister
Pubbl/distr/stampa	New York, [New York] : , : John Wiley & Sons, Inc., , 1987 ©1987
ISBN	1-282-30117-9 9786612301179 0-470-12305-2 0-470-12383-4
Descrizione fisica	1 online resource (494 p.)
Collana	An Interscience Publication
Disciplina	572 612.0151
Soggetti	Enzymes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	ADVANCES IN ENZYMOLOGY AND RELATED AREAS OF MOLECULAR BIOLOGY; CONTENTS; Fibronectin; The Synthesis and Degradation of Chitin; Mechanism of Action of Glutathione-Dependent Enzymes; Enzymology of Quinoproteins; Regulation of the 2',5'-Oligoadenylate System by Cyclic Adenosine Monophosphate-Dependent Phosphorylation; NMR Studies of the Mechanism of Enzyme Action; Fructose 2,6-Bisphosphate; Author Index; Subject Index; Cumulative Indexes, Vols. 1-59
Sommario/riassunto	Fibronectin (S. K. Akiyama & K. M. Yamada). The Synthesis and Degradation of Chitin (E. Cabib). Mechanism of Action of Glutathione-Dependent Enzymes (K. T. Douglas). Enzymology of Quinoproteins (J. A. Duine, et al.). Regulation of the 2',5'-Oligoadenylate System by Cyclic Adenylate-Dependent Phosphorylation (A. V. Itkes & E. S. Severin). NMR Studies of the Mechanism of Enzyme Action (A. S. Mildvan & D. C. Fry). Fructose 2, 6-Bisphosphate (E. Van Schaftingen). Index. Cumulative Indexes Vols. 1-58
