| 1. Record Nr. | UNINA9910830076003321 |
| Titolo | Handbook of clinical obstetrics [[electronic resource]] : the fetus and mother // edited by Albert E. Reece and John C. Hobbins |
| Pubbl/distr/stampa | Oxford, : Blackwell, 2006 |
| ISBN | 1-280-74895-8 9786610748952 0-470-75332-3 1-4051-7184-7 |
| Edizione | [2nd ed.] |
| Descrizione fisica | 1 online resource (598 p.) |
| Altri autori (Persone) | ReeceE. Albert HobbinsJohn C. <1936-> |
| Disciplina | 618.2 618.3 |
| Soggetti | Pregnancy Obstetrics Pregnancy - Complications Prenatal diagnosis Maternal-fetal exchange |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Handbook of Clinical Obstetrics: The Fetus & Mother; Contents; Contributors; Foreword; Preface; Preface to the first edition; Acknowledgments; Part I: Conception and Conceptus Development; 1 Early conceptus growth and immunobiologic adaptations of pregnancy; 2 Normal embryonic and fetal development; Part II: Pregnancy and the Fetoplacental Unit; 3 Normal and abnormal placentation; 4 Fetoplacental perfusion and transfer of nutrients; 5 Endocrinology of pregnancy and the placenta; Part III: Fetal Developmental Biology; 6 Fetal lung development and amniotic fluid analysis 7 Fetal cardiovascular physiology and response to stress conditions 8 Fetal endocrinology; Part IV: Variations in Embryonal and Fetal Growth and Development; 9 Sporadic and recurrent pregnancy loss; 10 Ectopic and heterotopic pregnancies; 11 Multifetal pregnancies: epidemiology, clinical characteristics, and management; 12 Biology of normal and |

deviant fetal growth; Part V: Fetal Infections and Teratogenesis; 13 Developmental toxicology, drugs, and fetal teratogenesis; 14 Drugs, alcohol abuse, and effects in pregnancy; 15 Teratogenic viruses 16 Transplacentally acquired microbial infections in the fetus 17 Antibiotics and other antimicrobial agents in pregnancy and during lactation; Part VI: Fetal Diseases; 18 Principles of human genetics: chromosomal and single-gene disorders; 19 Basic principles of ultrasound; 20 Prenatal diagnosis of central nervous system malformations; 21 Prenatal diagnosis of thoracic and cardiac abnormalities; 22 Gastrointestinal and genitourinary anomalies; 23 Fetal skeletal anomalies; 24 First- and second-trimester prenatal diagnosis 25 First- and second-trimester screening for open neural tube defects and Down syndrome Part VII: Methods of Evaluation of Fetal Development and Well-being; 26 Prenatal diagnosis of deviant fetal growth; 27 Three- and four-dimensional ultrasound and magnetic resonance imaging in pregnancy; 28 Doppler ultrasonography and fetal well-being; 29 Antepartum and intrapartum surveillance of the fetus and the amniotic fluid; Part VIII: Fetal Therapy; 30 The fetus at surgery; 31 Fetal medical treatment; Part IX: Maternal Biological Adaptations to Pregnancy 32 Maternal biological, biomechanical, and biochemical changes in pregnancy 33 Maternal nutrition; Part X: Maternal Diseases Complicating Pregnancy; 34 Trauma, shock, and critical care obstetrics; 35 Hypertensive diseases in pregnancy; 36 Cardiac diseases in pregnancy; 37 Maternal pulmonary disorders complicating pregnancy; 38 Diabetes mellitus in pregnancy; 39 Endocrine disorders in pregnancy; 40 Gastrointestinal diseases complicating pregnancy; 41 Liver disease in pregnancy; 42 Pregnancy complicated by renal disorders; 43 Neurological disorders in pregnancy 44 Thromboembolic disorders of pregnancy

Sommario/riassunto

The second edition of this quick reference handbook for obstetricians and gynecologists and primary care physicians is designed to complement the parent textbook *Clinical Obstetrics: The Fetus & Mother*. The third edition of *Clinical Obstetrics: The Fetus & Mother* is unique in that it gives in-depth attention to the two patients - fetus and mother, with special coverage of each patient. *Clinical Obstetrics* thoroughly reviews the biology, pathology, and clinical management of disorders affecting both the fetus and the mother. *Clinical Obstetrics: T*
