

1. Record Nr.	UNINA9910830109703321
Titolo	Canine and feline anesthesia and co-existing disease // edited by Rebecca A. Johnson, Lindsey Beth Culp Snyder, Carrie A. Schroeder
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley-Blackwell, , [2022] ©2022
ISBN	1-119-60405-2 1-119-60407-9 1-119-60406-0
Edizione	[Second edition.]
Descrizione fisica	1 online resource (707 pages)
Disciplina	636.089796
Soggetti	Comorbidity Dogs - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Preface -- List of Contributors -- About the Companion Website -- Chapter 1 Cardiovascular Disease -- Introduction -- Cardiovascular Physiology -- Tissue Perfusion and Oxygen Delivery -- Blood Pressure and Cardiac Output -- Mean Arterial Pressure and Autoregulation -- Hypotension -- Relationship Between Mean Arterial Pressure and Cardiac Output -- Preanesthetic Patient Assessment -- Functional Classification of Cardiac Disease -- Sedation Versus General Anesthesia -- Anesthetic and Analgesic Agents -- Premedicants -- Induction Agents -- Anesthetic Maintenance -- Anesthetic Adjuncts -- Local and Regional Anesthesia and Analgesia -- Systemic Analgesic Infusions -- Nonsteroidal Anti-Inflammatory Drugs -- Sympathomimetic Drugs: Inotropes and Vasopressors -- Dopamine -- Dobutamine -- Epinephrine -- Ephedrine -- Vasopressin -- Norepinephrine -- Phenylephrine -- Patient Monitoring and Support -- Fluid Therapy -- Patient Preoxygenation -- Blood Pressure (BP) -- Electrocardiography -- Pulse Oximetry -- Core Body Temperature -- Capnometry and Ventilation -- Arterial Blood Gases -- Central Venous Pressure (CVP) -- Arterial Pulse Pressure Variation (PPV) -- Anesthetic and Pharmacologic

Recommendations for Specific Cardiac Diseases -- General
Preanesthetic Evaluation -- Valvular Heart Disease -- Congenital
Cardiac Disease -- Abnormalities of Cardiac Conduction and Cardiac
Rhythm -- Cardiac Pacemakers and Pacing -- Anesthetic Management
-- Systemic and Pulmonary Arterial Hypertension -- Systemic
Hypertension -- Pulmonary Arterial Hypertension (PAH) -- Heart Failure
-- Introduction -- Pathophysiology -- Anesthetic Management --
Canine and Feline Cardiomyopathies -- Hypertrophic Cardiomyopathy
-- Dilated Cardiomyopathy -- Arrhythmogenic Cardiomyopathy --
Heartworm Disease -- Incidence and Pathophysiology.
Feline Heartworm Disease -- Caval Syndrome -- Anesthetic
Management -- Summary -- References -- Chapter 2 Respiratory
Disease -- Introduction -- Ventilatory Control -- Respiratory Volumes
and Ventilation -- Respiratory Gases -- Carbon Dioxide (CO₂) --
Oxygen -- Interactions Between CO₂ and O₂ Transport -- Ventilatory
Cycle Phases and Ventilatory Support -- Ventilatory Cycle -- Ventilatory
Support with Intermittent Positive Pressure Ventilation (IPPV) -- Oxygen
Supplementation -- Ventilation in Conscious Patients -- Pharmacologic
Effects on Ventilation -- Opioids -- Other Sedatives and Tranquilizers
-- Injectable and Inhalant Anesthetics -- Anesthetic Management of
Specific Disorders -- Upper Airway Disorders or Dysfunction -- Lower
Airway and Parenchymal Diseases -- Extrapulmonary or Thoracic Wall
Disease -- Summary -- References -- Chapter 3 Neurologic Disease --
Introduction -- Nervous System Physiology -- Cerebral Blood Flow --
Autoregulation -- Cerebral Perfusion Pressure and Mean Arterial
Pressure -- Cerebral Metabolic Rate -- Arterial Partial Pressure of
Carbon Dioxide and Oxygen -- Central Venous Pressure -- Spinal Cord
Blood Flow -- Anesthesia of Patients with Neurologic Conditions --
Preanesthetic Considerations -- Glycemic Control -- Other Nursing
Strategies -- Methods to Manage Increased Intracranial Pressure --
Anesthetic Management -- Sedatives and Analgesics -- Injectable
Anesthetics -- Inhalant Anesthetics -- Neurospecific Monitoring --
Anesthetic Management of Specific Disease Processes -- Traumatic
Brain Injury -- Intracranial Tumors -- Seizure Disorders --
Hydrocephalus -- Chiari-Like Malformation and Syringomyelia --
Intervertebral Disc Disease and Other Spinal Injuries -- Spinal Shock --
Other Nervous System Disorders -- Postoperative Cognitive
Dysfunction -- References -- Chapter 4 Hepatobiliary Disease --
Introduction.
Anatomy and Physiology -- Markers of Hepatic Dysfunction --
Perioperative Effects on Hepatic Function -- General Anesthetic Effects
-- Surgical Effects -- Hepatic Dysfunction and Pharmacological Agents
-- Sedative Agents -- Opioids -- Nonsteroidal Anti-Inflammatory
Agents -- Induction Agents -- Inhalational Agents -- Anesthetic
Management of Patients with Hepatic Dysfunction -- General
Considerations -- Liver Biopsy -- Portosystemic Shunts -- Hepatic
Neoplasia Resection -- Cholecystectomy -- Summary -- References --
Chapter 5 Gastrointestinal Disease -- Gastrointestinal (GI) Tract
Function -- Oropharyngeal Diseases -- Clinical Signs -- Laboratory
Data -- Anesthetic Management -- Esophageal Diseases -- Esophageal
Anatomy -- Esophageal Obstruction -- Megaesophagus -- Clinical
Signs -- Laboratory Data -- Anesthetic Management -- Gastric and
Small Intestinal Disease -- Clinical Signs -- Laboratory Data --
Anesthetic Management -- Gastric Dilatation-Volvulus -- Colonic,
Rectal, Anal, and Perineal Surgery -- Clinical Signs -- Laboratory Data
-- Anesthetic Considerations -- Secondary Septic Peritonitis --
Anesthetic Considerations -- Summary -- References -- Chapter 6
Renal Disease -- Introduction -- Anatomy and Physiology --

Pathophysiology -- Renal Disease and Surgery -- Renal Disease and Pharmacologic Agents -- Pre-anesthetic Agents -- Induction Agents -- Inhalational Agents -- Adjunctive Drugs -- Anesthetic Management of Patients with Renal Disease -- Pre-anesthetic Stabilization -- Intraoperative Management -- Summary -- References -- Chapter 7 Urogenital Concerns -- Introduction -- Urogenital Emergencies -- Urethral Obstruction -- Clinical Signs and Physical Examination -- Initial Database and Clinicopathology -- Preanesthetic Management and Initial Stabilization -- Sedation and Anesthesia -- Adjunctive Anesthetic Techniques. Urethrotomy/Urethrostomy -- Recovery and Postoperative Care -- Upper Urinary Tract Obstruction -- Clinical Signs and Physical Exam -- Initial Database and Stabilization -- Sedation and Anesthesia -- Recovery and Postoperative Care -- Uroabdomen -- Clinical Signs and Physical Exam -- Initial Database and Clinicopathology -- Preanesthetic Management and Initial Stabilization -- Urinary Diversion -- Sedation and Anesthesia -- Recovery and Postoperative Care -- Pyometra -- Clinical Signs and Physical Exam -- Initial Database and Clinicopathology -- Preanesthetic Management and Initial Stabilization -- Anesthesia and Monitoring -- Recovery and Postoperative Care -- Nonurgent Urogenital Procedures -- Laparoscopic Urogenital Procedures -- Cystourethroscopy -- Renal Biopsy -- Urinary Tract Diagnostic Imaging -- Excretory Urography -- Cystography/Urethrography -- References -- Chapter 8 Perioperative Fluid, Electrolyte, and Acid-Base Disturbances -- Introduction -- Body Fluids -- Dehydration and Intravascular Volume Deficits -- Electrolytes -- Sodium -- Chloride -- Potassium -- Calcium -- Acid-Base Homeostasis and Disturbances -- Respiratory Acidosis -- Respiratory Alkalosis -- Nonrespiratory Acidosis -- Nonrespiratory Alkalosis -- Stepwise Approach to Acid-Base Status Assessment -- Stepwise Approach to the Anesthetic Management of the Patient with an Acid-Base Disorder -- References -- Chapter 9 Endocrine Disease -- Introduction -- Thyroid Disease -- Thyroid Gland Anatomy and Physiology -- Thyroid Hormone Effects -- Hypothyroidism -- Hyperthyroidism -- Adrenal Disease -- Adrenal Gland Anatomy and Physiology -- Hyperadrenocorticism (HAC -- Cushing's Disease) -- Hypoadrenocorticism (Addison's Disease) -- Pheochromocytoma -- Pathophysiology -- Diabetes Mellitus -- Canine Diabetes Mellitus -- Feline Diabetes Mellitus -- Clinical Signs and Symptoms. Clinicopathologic Changes -- Diagnosis -- Treatment -- Anesthetic Management -- Diabetic Ketoacidosis (DKA) -- Summary -- References -- Chapter 10 Nutritional Disease -- Introduction -- Pathophysiology -- Anesthetic Management of the Obese Patient -- Induction -- Maintenance -- Postoperative Care -- Additional Concerns -- Additional Nutritional Concerns -- Boutique Diets (Grain-Free Diets, Novel Protein Diets, All-Meat Diet) -- Ideal Body Weight -- Cachexia -- References -- Chapter 11 Genetic Disease -- Introduction -- Pharmacogenetics -- Genetically Related Diseases -- Breed-Related Differences -- Drug Metabolism and Disposition -- Transporters -- Malignant Hyperthermia -- Opioid Receptors -- Anticholinergic Response -- Brachycephalic Airway Obstruction Syndrome (BAOS) -- von Willebrand Disease (VWD) -- Summary -- References -- Chapter 12 Anesthesia for Ophthalmic Patients -- Introduction -- Intraocular Pressure -- Tear Production -- Patient Positioning -- Oculocardiac Reflex (Aschner Reflex) -- Ophthalmic Drugs -- Drugs Used to Treat Glaucoma -- Topical Corticosteroids -- Drugs Used to Dilate the Pupil -- The Presence of Coexisting Disease -- Neuromuscular Blockade and Ventilation -- Pain Management -- Local Anesthetics -- Opioids --

Nonsteroidal Anti-Inflammatory Drugs -- Anesthetic Management -- Anesthetic Recovery -- Postoperative Care -- References -- Chapter 13 Oral and Maxillofacial Disorders -- Introduction -- Locoregional Anesthetic/Analgesic Agents -- Locoregional Agent Administration -- Maxillofacial Locoregional Techniques -- Specific Regional and Local Blocks -- Complications and Contraindications -- Inflammation and Local Anesthetic Efficacy -- Pathology Chronicity and Analgesic Needs -- Anesthetic Management of Other Oral and Maxillofacial Conditions -- Oral and Maxillofacial Trauma -- Oral and Maxillofacial Surgery. Long-Acting Local Anesthetics-Bupivacaine.

Sommario/riassunto

"The revised Second Edition of Canine and Feline Anesthesia and Co-Existing Disease expands and updates the only book solely dedicated to practical anesthetic techniques for dogs and cats with co-existing disease. The book now includes additional images in full color, new discussions of cutting-edge drugs and techniques, and updated chapters and information throughout. This text provides in-depth and clinically-useful information that can easily be incorporated into the progressive companion animal practice. It offers more than 200 new images and 4 new chapters focusing on urogenital concerns, genetic diseases, nociceptive disorders, and cardiopulmonary resuscitation and post-resuscitation care. It is intuitively organized by body system to allow for quick and easy reference. Canine and Feline Anesthesia and Co-Existing Disease is a must-have reference for veterinarians, veterinary technicians, and veterinary students seeking a one-stop resource for anesthetic techniques in veterinary patients with co-existing disease and/or altered physiology"--
