

1. Record Nr.	UNINA9910830126503321
Autore	Foster Alethea V. M
Titolo	Diabetic Foot Care [[electronic resource]] : Case Studies in Clinical Management
Pubbl/distr/stampa	Hoboken, : Wiley, 2010
ISBN	1-119-95712-5 0-470-68294-9
Descrizione fisica	1 online resource (282 p.)
Altri autori (Persone)	EdmondsMichael E
Disciplina	616.6/1 617.585
Soggetti	Foot Ulcer Diabetic Angiopathies Diabetic Neuropathies Diabetes Complications Leg Ulcer Vascular Diseases Diabetic Foot Diabetes Mellitus Endocrine System Diseases Skin and Connective Tissue Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Diabetic Foot Care: Case Studies in Clinical Management; Contents; Acknowledgements; Introduction; 1 Neuropathic Case Studies; 1.1 Introduction; 1.2 Differing presentations of infection and complications of infection; 1.3 Co-Morbidities in addition to diabetes and neuropathy; 1.4 Deformity, ulceration and infection treated by surgical debridement and reconstruction; 1.5 Patients with neuropathic feet in whom psychological factors have impacted on their management; 1.6 Long term patients followed in the Diabetic Foot Clinic with neuropathic foot problems; 2 Ischaemic Case Studies 2.1 Introduction2.2 Infection and its presentations; 2.3 Patients with severe co-morbidities; 2.4 Revascularisation; 2.5 Wound care; 2.6

Emboli; 2.7 Complications; 2.8 Pain in the neuroischaemic foot; 2.9 Conservative care; 3 Charcot Case Studies; 3.1 Introduction; 3.2 Early diagnosis; 3.3 Different presentations; 3.4 Surgery; 3.5 Conservative care; 4 Renal Case Studies; 4.1 Introduction; 4.2 Patients with normal serum creatinine initially who develop low creatinine clearance with infection; 4.3 Low creatinine clearance and complications 4.4 Continuous ambulatory peritoneal dialysis (CAPD) and complications 4.5 Haemodialysis and complications; 4.6 Renal transplant and complications; 4.7 Revascularisation in renal patients; Index

Sommario/riassunto

Diabetic Foot Care: Case Studies in Clinical Management uses a 100% illustrated patient case study format to demonstrate the multidisciplinary care and clinical management of patients with feet and lower limb problems as a result of diabetes. Every case has colour illustrations highlighting both the initial presentation of the foot, right through to treatment and long term follow-up care. Of particular focus are the management problems, barriers to effective care, preventable mistakes, unnecessary delays in presentations, challenging situations, conflicts, dilemmas and solutions that po
