

1. Record Nr.	UNINA9910457526903321
Autore	Boswell James <1740-1795, >
Titolo	An account of Corsica, the journal of a tour to that island and memoirs of Pascal Paoli / / James Boswell ; edited with introduction and notes by James T. Boulton and T.O. McLoughlin
Pubbl/distr/stampa	Oxford, [England] : , : Oxford University Press, , 2006 ©2006
ISBN	1-280-53294-7 0-19-534734-X 1-4237-6169-3 1-4337-0072-7
Descrizione fisica	1 online resource (303 p.)
Disciplina	914.4/990434
Soggetti	Authors, Scottish - 18th century Statesmen - France - Corsica Electronic books. Corsica (France) Description and travel Early works to 1800
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Illustrations; Cue-titles; Boswell: A Chronology, 1740-1795; Introduction; 'MY LITTLE MONUMENT TO LIBERTY'; An Account of Corsica; Appendix Containing Corsican State Papers; The Journal of a Tour to Corsica; Addenda; I: Extracts from the London Chronicle 1766-1767; II: Reception: Selected Comments and Reviews; Textual Apparatus; Boswell and Paoli Index; Boswell, James; Paoli, Pascal (Pasquale); Index of Proper Names; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W; X; Y; Z
Sommario/riassunto	Focusing on Corsica since the eighteenth century, this title contains a comprehensive annotation, textual apparatus, and a critical introduction. These contextualize the Corsican issue, and underline its significance as a forerunner of the American and French revolutions.

2.	Record Nr.	UNINA9910707657403321
	Titolo	Making a difference with Teen CERT : disaster response training for everyone
	Pubbl/distr/stampa	[Washington, D.C.] : , : U.S. Department of Homeland Security, FEMA, Community Emergency Response Team, , [2013?]
	Descrizione fisica	1 online resource (2 unnumbered pages) : color illustrations
	Soggetti	Emergency management - United States - Citizen participation Teenagers - Services for - United States Volunteers - Training of - United States Assistance in emergencies - United States
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
3.	Record Nr.	UNINA9910830160203321
	Autore	Rasch Dieter
	Titolo	Applied statistics : theory and problem solutions with R / / Dieter Rasch, Rob Verdooren, Jurgen Pilz
	Pubbl/distr/stampa	Hoboken, New Jersey ; ; Chichester, West Sussex, England : , : Wiley, , [2020] ©2020
	ISBN	1-119-55154-4 1-119-55158-7 1-119-55155-2
	Edizione	[1st edition]
	Descrizione fisica	1 online resource (512 pages)
	Disciplina	519.5
	Soggetti	Mathematical statistics R (Computer program language)
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia

## Nota di bibliografia

Includes bibliographical references and index.

## Sommario/riassunto

Instructs readers on how to use methods of statistics and experimental design with R software. Applied statistics covers both the theory and the application of modern statistical and mathematical modelling techniques to applied problems in industry, public services, commerce, and research. It proceeds from a strong theoretical background, but it is practically oriented to develop one's ability to tackle new and non-standard problems confidently. Taking a practical approach to applied statistics, this user-friendly guide teaches readers how to use methods of statistics and experimental design without going deep into the theory. Applied Statistics: Theory and Problem Solutions with R includes chapters that cover R package sampling procedures, analysis of variance, point estimation, and more. It follows on the heels of Rasch and Schott's Mathematical Statistics via that book's theoretical background—taking the lessons learned from there to another level with this book's addition of instructions on how to employ the methods using R. But there are two important chapters not mentioned in the theoretical background as Generalised Linear Models and Spatial Statistics. Offers a practical over theoretical approach to the subject of applied statistics. Provides a pre-experimental as well as post-experimental approach to applied statistics. Features classroom tested material. Applicable to a wide range of people working in experimental design and all empirical sciences. Includes 300 different procedures with R and examples with R-programs for the analysis and for determining minimal experimental sizes. Applied Statistics: Theory and Problem Solutions with R will appeal to experimenters, statisticians, mathematicians, and all scientists using statistical procedures in the natural sciences, medicine, and psychology amongst others.
