Sommario/riassunto	Nurses play a key role in the rehabilitation process - maximising the quality of life and independence of individuals following trauma, disease or enduring chronic illness. Advancing Practice in Rehabilitation Nursing provides an in-depth analysis of specialist practice in rehabilitation nursing. It examines the research basis underlying clinical practice and identifies unique attributes of the nursing role within the context of multidisciplinary and multi-agency working.The

first part of Advancing Practice in Rehabilitation Nursing explores  
general principles of specialist rehabilitat
