Sommario/riassunto

Invaluable workbook to help GPs and practice staff meet the requirements of continuing professional development (cpd) General practitioners, like all other health professionals, need to keep up-to-date with the latest developments in medicine and education. They also need to respond to changing technology and changes in the delivery of care. The environment in which GPs work is extremely dynamic but this book helps to keep GPs up-to-date with these advancements and with their professional skills. The Chief Medical Officer in the UK has recommended that the key to professiona
