Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [263]-269).
Sommario/riassunto	There are over 3000 runic inscriptions on stone made in Scandinavia in the late Viking Age. This book is the first attempt by a historian to study the material as a whole. The analysis reveals significant regional variations that reflect different stages in the process of conversion, and the growth of royal power. Many monuments were declarations of faith or manifestations of status; but virtually all reflect inheritance claims, and cast unexpected light on the prehistory of the inheritance customs found in later Scandinavian law codes. The results of this analysis make a significant contributi

Sommario/riassunto

This book offers a step-by-step guide to success in periodontics and implant dentistry, helping clinicians to create a natural and esthetically pleasing smile for their patients. Starting with a general discussion of facial esthetics and analyzing the dento-gingival constituents of the smile, the book goes on to consider the impact of these on people's quality of life. Subsequent chapters focus on specific esthetic treatments such as crown lengthening procedures, gingival recession coverage with connective tissue grafts or periodontal regenerative material and soft tissue management for natura
