

1. Record Nr.	UNINA9910830221103321
Autore	Verkhratsky Alexei
Titolo	Glial Physiology and Pathophysiology / / Alexei Verkhratsky, Arthur Butt
Pubbl/distr/stampa	Chichester, West Sussex : , : John Wiley & Sons, Inc., , 2013
ISBN	1-118-40206-5
Descrizione fisica	1 online resource (xxxi, 527 pages) : illustrations
Disciplina	612.81046
Soggetti	Neuroglia - Pathophysiology Nervous system - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	History of neuroscience and the dawn of research in neuroglia -- General overview of signalling in the nervous system -- Neuroglia: definition, classification, evolution, numbers, development -- Astroglia -- Oligodendrocytes -- NG-2 glial cells -- Microglia -- Peripheral glial cells -- General pathophysiology of neuroglia -- Neuroglia in neurological diseases.
Sommario/riassunto	This comprehensive advanced text on the biology and pathology of glial cells--the most numerous cells in the brain and an emerging field in neuroscience--offers detailed coverage of the morphology and interrelationships between glial cells and neurones in different parts of the nervous system. An accompanying website offers downloadable figures and slides.
