Sommario/riassunto	The Handbook of Global Companies brings together original research addressing the latest theories and empirical analysis surrounding the role of global companies in local, national, and international governance. Offers new insights into the role of global companies in relation to policy and governance at local, national, and international levels. Brings together newly-commissioned research by a global team of established and up-and-coming scholars from the fields of international relations, political science, public policy, and beyond. Considers the environment.
