(iv) Measures to prohibit the use of driftnets by the Community fleet as from 2001

Sommario/riassunto

The main focus of this book is a review of how the Common Fisheries Policy is enforced throughout the Community, with a discussion of its successes and failures. Topics include the various rules and policies to be enforced; the enforcement authorities in the Member States and their activities and strategies; the role of the Commission and its approach to enforcement; new developments in fisheries control; the costs of enforcement; and problem fisheries and non compliance generally.
