

1. Record Nr.	UNINA9910830267003321
Autore	Sonnenschein Mark F.
Titolo	Polyurethanes : science, technology, markets, and trends / / Mark F. Sonnenschein
Pubbl/distr/stampa	Hoboken, NJ : , : Wiley, , 2021
ISBN	1-5231-4376-2 1-119-66946-4 1-119-66947-2 1-119-66940-5
Edizione	[Second edition.]
Descrizione fisica	1 online resource (509 pages)
Collana	Wiley series on polymer engineering and technology
Disciplina	668.4239
Soggetti	Polyurethanes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"Polyurethanes (PU) are one of the most versatile and commonly produced plastic materials. PU flexibility allows it to fit across the spectrum of specialty to commodity materials and production. As a polymer that is produced from a 2-part system, the production of the building blocks are complicated with a hazardous and complex spectra while requiring optimization to an exceptional degree"--
