Clark -- Diagnosing and managing chronic trigeminal neuropathy / Glenn T. Clark -- Temporomandibular joint arthritis : implications, diagnosis, and management / Antonia Teruel, Jack S. Broussard Jr., Glenn T. Clark -- Five oral motor disorders : habitual tooth clenching and other involuntary oral motor disorders / Glenn T. Clark, Saravanan Ram -- Diagnosis and treatment of TMJ internal derangements / Glenn T. Clark.

Sommario/riassunto

"Pain is a preoccupation in dentistry, but the dentist's role has expanded beyond the treatment of dental pain to being one of the most involved in the treatment of orofacial pain. Orofacial Pain: A Guide to Medications and Management guides readers through the rational use of medications for the treatment of chronic orofacial pain, including oral, injectable and topical medications. It also provides relevant information about treatment choices for managing neuropathic and musculoskeletal pain, headache and uncommon orofacial pain disorders"--Provided by publisher.
