Autore	Atlas Ronald M.
Titolo	Many Faces, Many Microbes : Personal Reflections in Microbiology / / Ronald M. Atlas
Pubbl/distr/stampa	Washington, D.C. : , : ASM Press, , 2000
ISBN	1-68367-250-X
Descrizione fisica	1 online resource (xvi, 328 pages) : illustrations
Disciplina	579.0922
Soggetti	Microbiologists
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Attempting to demystify science by revealing the human faces of leading scientists, Many Faces -- Many Microbes is a continuation of the story of the beginnings of microbiology as told by Paul de Kruif in his 1926 book Microbe Hunters. This collection of diverse, down-to-earth personal essays from contemporary microbiologists highlights how and why each became a microbiologist and illustrates the fascinating breadth of the field. The contributors, leading figures in microbiology, are truly reflective of today's society, men and women of all ages and backgrounds. Together they are united by an interest in the acquisition and application of knowledge about microbes and how they affect our lives.
