Sommario/riassunto	This is the twentieth in the most prestigious series of annual volumes in the field of industrial and organizational psychology. The series provides authoritative and integrative reviews of the key literature of

industrial psychology and organizational behaviour. The chapters are written by established experts and topics are carefully chosen to reflect the major concerns in both the research literature and in current practice. Continuing in the tradition of the series as a whole, this twentieth volume provides scholarly, up-to-the-minute reviews and updates of work in a number of well-established areas.
