

1. Record Nr.	UNINA9910830346203321
Titolo	Yamada's atlas of gastroenterology // edited by Timothy C. Wang
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley-Blackwell, , [2022] ©2022
ISBN	1-119-60052-9 1-119-60050-2 1-119-60043-X
Edizione	[6th ed.]
Descrizione fisica	1 online resource (1037 pages)
Disciplina	616.3300222
Soggetti	Gastrointestinal system - Diseases Gastrointestinal Diseases Atlas.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Contributors -- Preface -- About the companion website -- PART 1 Anatomy and development -- CHAPTER 1 Esophagus: anatomy and structural anomalies -- CHAPTER 2 Stomach and duodenum: anatomy and structural anomalies -- CHAPTER 3 Small intestine: anatomy and structural anomalies -- Embryology of the small intestine -- Congenital anomalies -- CHAPTER 4 Colon: anatomy and structural anomalies -- CHAPTER 5 Pancreas: anatomy and structural anomalies -- CHAPTER 6 Abdominal cavity: anatomy, structural anomalies, and hernias -- Introduction -- Abdominal cavity anatomy -- Developmental and childhood structural anomalies of the abdominal cavity -- Adult abdominal hernias -- CHAPTER 7 Gallbladder and biliary tract: anatomy and structural anomalies -- Anatomy -- Embryology -- CHAPTER 8 Liver: anatomy, microscopic structure, and cell types -- Embryology -- Gross anatomy -- Microanatomy -- PART 2 Gastrointestinal diseases -- A Esophagus -- CHAPTER 9 Motility disorders of the esophagus -- CHAPTER 10 Gastroesophageal reflux disease -- CHAPTER 11 Eosinophilic esophagitis -- CHAPTER 12 Esophageal infections and disorders associated with acquired

immunodeficiency syndrome -- CHAPTER 13 Esophageal neoplasms -- CHAPTER 14 Miscellaneous diseases of the esophagus -- B Stomach -- CHAPTER 15 Disorders of gastric emptying -- CHAPTER 16 Peptic ulcer disease -- Helicobacter pylori-related peptic ulcer disease -- Nonsteroidal antiinflammatory drug-related peptic ulcer disease -- Management of acute upper gastrointestinal hemorrhage -- Other complications of peptic ulcer disease -- CHAPTER 17 Zollinger-Ellison syndrome -- CHAPTER 18 Gastritis and gastropathy -- Normal gastric mucosa -- Autoimmune gastritis -- Helicobacter pylori gastritis -- Reactive gastropathy -- Gastric antral vascular ectasia -- Gastric ischemia.

CHAPTER 19 Tumors of the stomach -- CHAPTER 20 Miscellaneous diseases of the stomach -- C Small intestine -- CHAPTER 21 Dysmotility of the small intestine and colon -- CHAPTER 22 Disorders of epithelial transport, metabolism, and digestion in the small intestine -- Lactose malabsorption -- Sucrase-isomaltase deficiency -- Cystic fibrosis -- Abetalipoproteinemia -- CHAPTER 23 Celiac disease -- Acknowledgments -- CHAPTER 24 Short bowel syndrome and small bowel transplantation -- Etiology -- Bowel anatomies -- Intestinal adaptation -- Complications -- Management -- Oral diet -- Nontransplant surgery -- Intestinal lengthening procedures -- Factors influencing parenteral nutrition weaning success -- Micronutrient supplementation -- Quality of life -- Indications for small bowel transplantation -- CHAPTER 25 Bacterial, viral, and toxic causes of diarrhea, gastroenteritis, and anorectal infections -- CHAPTER 26 Chronic infections of the small intestine -- Tuberculosis -- Whipple disease -- Histoplasmosis -- Aspergillosis -- Candida -- CHAPTER 27 Tumors of the small intestine -- CHAPTER 28 Miscellaneous diseases of the small intestine -- Ulcers of the small intestine -- Necrotizing enterocolitis -- Protein-losing gastroenteropathy -- D Inflammatory bowel disease -- CHAPTER 29 Ulcerative colitis: clinical manifestations and management -- CHAPTER 30 Crohn's disease: clinical manifestations and management -- Introduction -- Endoscopy -- Histology -- Radiographic aspects of Crohn's disease -- Extraintestinal manifestations and complications -- Differential diagnosis -- Postoperative Crohn's disease -- Crohn's of the ileal pouch -- CHAPTER 31 Irritable bowel syndrome -- CHAPTER 32 Diverticular disease of the colon -- CHAPTER 33 Anorectal diseases -- CHAPTER 34 Polyps of the colon and rectum -- CHAPTER 35 Malignant tumors of the colon.

CHAPTER 36 Polyposis syndromes -- CHAPTER 37 Colorectal cancer screening -- F Pancreas -- CHAPTER 38 Acute pancreatitis -- CHAPTER 39 Chronic pancreatitis -- Role of imaging in the diagnosis of chronic pancreatitis -- Role of imaging in assessing complications of chronic pancreatitis -- Acknowledgments -- CHAPTER 40 Pancreatitis of genetic and complex etiologies -- Functional anatomy of the exocrine pancreas -- Acinar cell molecular pathology -- Chronic pancreatitis -- Duct cell molecular pathology -- Structure of the CFTR molecule -- Bicarbonate secretion from the pancreatic duct cells -- CHAPTER 41 Cystic lesions of the pancreas -- CHAPTER 42 Neuroendocrine tumors of the pancreas -- G Gallbladder and biliary tract -- CHAPTER 43 Gallstones -- Classification -- Chemical composition -- Cholesterol gallstones -- Pigment gallstones -- Diagnosis -- Management -- CHAPTER 44 Primary sclerosing cholangitis -- CHAPTER 45 Cystic diseases of the liver and biliary tract -- CHAPTER 46 Tumors of the biliary tract -- H Liver -- CHAPTER 47 Acute viral hepatitis -- CHAPTER 48 Chronic hepatitis B and D -- Chronic hepatitis B -- Chronic hepatitis D -- CHAPTER 49 Chronic

hepatitis C -- CHAPTER 50 Drug-induced liver injury -- Drug-induced liver injury pathogenesis -- Drug metabolism and mechanisms of hepatotoxicity -- Genetic polymorphisms and idiosyncratic DILI susceptibility -- Causality assessment -- Management of suspected DILI -- Geographic variation in DILI incidence and presentation -- CHAPTER 51 Autoimmune hepatitis -- CHAPTER 52 Primary biliary cholangitis -- Clinical manifestations -- Histopathology -- Clinical course -- Management -- CHAPTER 53 Acute cholangitis and liver abscess -- CHAPTER 54 Hemochromatosis -- Introduction -- Genetics -- Use of the C282Y genetic test for hemochromatosis -- Treatment of hemochromatosis.

CHAPTER 55 Metabolic diseases of the liver -- Wilson disease -- 1-Antitrypsin deficiency -- Porphyrrias -- Metabolic liver diseases presenting in infancy or early childhood -- Glycogen storage disorders -- Mitochondrial hepatopathies and Reye syndrome -- CHAPTER 56 Alcohol-related liver disease -- Alcohol consumption worldwide -- Natural history -- Pathogenesis -- CHAPTER 57 Nonalcoholic fatty liver disease -- CHAPTER 58 Hepatic fibrosis and cirrhosis -- The cellular basis of hepatic fibrosis -- Measurement of fibrosis -- Reversion of fibrosis -- Cirrhosis -- CHAPTER 59 Ascites and its complications -- Suspected ascites -- New-onset ascites -- Cirrhotic ascites -- Refractory ascites -- Hepatic hydrothorax -- Spontaneous bacterial peritonitis -- Acute kidney injury -- CHAPTER 60 Vascular diseases of the liver -- CHAPTER 61 Liver transplantation -- Organ allocation -- Transplant indications, contraindications, and evaluation -- Posttransplant complications -- CHAPTER 62 Hepatocellular carcinoma -- I Miscellaneous -- CHAPTER 63 Intraabdominal abscesses and fistulas -- CHAPTER 64 Diseases of the peritoneum, retroperitoneum, mesentery, and omentum -- CHAPTER 65 Obesity: treatment and complications -- CHAPTER 66 Surgical complications of metabolic surgery -- CHAPTER 67 Complications of HIV/AIDS and other secondary immunodeficiency states -- CHAPTER 68 Gastrointestinal manifestations of immunological disorders -- Immunodeficiency -- Nodular lymphoid hyperplasia -- Other gastrointestinal manifestations of common variable immunodeficiency -- Graft-versus-host disease -- Cytomegalovirus infection -- CHAPTER 69 Parasitic diseases: protozoa -- Amebiasis -- Blastocystis hominis -- Giardiasis -- Dientamoeba fragilis -- Balantidiasis -- Cryptosporidium, Cystoisospora, and Cyclospora -- CHAPTER 70 Parasitic diseases: helminths.

CHAPTER 71 Gastrointestinal manifestations of systemic diseases -- Cardiovascular diseases -- Genetic disease -- Connective tissue diseases and inflammatory disorders -- Endocrine and renal diseases -- Granulomatous diseases -- Hematological diseases -- Vasculitis -- Cancer -- CHAPTER 72 Skin lesions associated with gastrointestinal and liver diseases and oral manifestations of gastrointestinal diseases -- CHAPTER 73 Intestinal ischemia and vasculitides -- CHAPTER 74 Radiation injury in the gastrointestinal tract -- Acute radiation enteropathy -- Delayed radiation enteritis in humans -- Pelvic chemoradiation and bile acid diarrhea/malabsorption -- Examples of radiation enteritis based on case summaries -- Conclusion -- PART 3 Diagnostic and therapeutic modalities in gastroenterology -- A Endoscopic -- CHAPTER 75 Upper gastrointestinal endoscopy -- History and background -- Technical considerations -- Introducing the endoscope -- The routine upper gastrointestinal endoscopic examination -- CHAPTER 76 Capsule and small bowel endoscopy -- CHAPTER 77 Colonoscopy and sigmoidoscopy -- Benign colorectal lesions (Figures 77.1-77.10) -- Common vascular lesions

(Figures 77.11 and 77.12) -- Polypoid lesions warranting treatment (Figures 77.13-77.15) -- Precancerous polyps (Figures 77.16-77.23) -- CHAPTER 78 Endoscopic retrograde cholangiopancreatography -- CHAPTER 79 Gastrointestinal dilation and stent placement -- CHAPTER 80 Management of upper gastrointestinal hemorrhage related to portal hypertension -- CHAPTER 81 Endoscopic diagnosis and treatment of nonvariceal upper gastrointestinal hemorrhage -- CHAPTER 82 Endoscopic management of esophageal, gastric, and duodenal lesions -- CHAPTER 83 Endoscopic management of colorectal lesions -- CHAPTER 84 Minimally invasive surgery: laparotomy, laparoscopy, and robotic surgery -- General surgery. Colorectal and hepatobiliary surgery.

Sommario/riassunto

"Yamada's Atlas of Gastroenterology has for 25 years been the most comprehensive, well respected gastroenterology atlas available. It is the perfect supporting Atlas for the main textbook, providing over 2 thousand high quality images fully downloaded via a companion website. The Atlas of Gastroenterology is a gold-standard tool that provides specialists with an outstanding array of images covering all facets of the field. Every GI disorder from liver abscesses, endocrine neoplasms of the pancreas, to motility disorders of the esophagus are fully illustrated through the use of endoscopic ultrasonographs, computed tomography scans, magnetic resonance images, radionuclide images, and angiograms. Access to accurate, high-quality images are vital for ensuring effective management of patients with GI complaints"
