Sommario/riassunto	This handbook is designed to help jobbing histopathologists jog their memory and get through more workload in any working day. Rapid access is facilitated by a bullet-point, tabular and diagrammatic style, as well as by handy anatomical diagrams, guidance on the 'Cut-Up'

with emphasis on core 'datasets' and by a special index for frozen section advice, grading systems and scoring systems. The book provides, where useful, differential diagnosis lists and presents diagnostically helpful molecular and immunohistochemical findings. Information is kept up-to-date on a dedicated website <a href="
