Sommario/riassunto	Roman et fictions brèves mènent, à travers leurs interférences, leurs tensions et leurs diverses formes d'interaction, un dialogue séculaire. Ce dialogue prend, au xixe siècle, une particulière intensité et des

dimensions inédites. Il est ici observé dans les spécificités qu'il présente à cette époque, une époque marquée, notamment, par la reconfiguration du système générique et l'entrée de la littérature dans l'ère médiatique, où règnent le recyclage des écrits, la porosité des frontières, les entrelacs et les hybridations entre les formes. En explorant le « long » xix siècle – de Germaine de Staël à Rosny aîné – le livre examine les multiples modalités de rapprochement ou de croisement du roman et du récit court, ainsi que leurs effets – ou, à l'inverse, leurs stratégies de différenciation. Ces formes littéraires sont donc considérées dans leur réalité historique et dans leur pratique. La dynamique intergénérique à travers laquelle elles sont abordées, plutôt que d'inviter à figer des catégories, ouvre un espace de questionnement. C'est ainsi en acte, et à travers la variété de ses reformulations, que se pose l'incessante question de leurs définitions.

Pesticide Toxicology and International Regulation; Contents; Preface; List of Contributors; Frequently Used Abbreviations; Toxicity Classifications and Hazard Ratings; 1 Pesticides: An Overview of Fundamentals; Definition and introductory generalizations; Major historical features; Classification and nomenclature; Exposure to pesticides; routes, monitoring, and protection; Health issues; Regulation of pesticides; References; Part I Insecticides; 2 Toxicology of Organochlorine Insecticides; Lindane/hexachlorocyclohexane (HCH); Cyclodiene and related insecticides; Toxaphene DDT and its analoguesDDT; Mirex and chlordcone; Regulatory aspects; Summary; References; 3 Anticholinesterase Insecticides; Introduction; AChE; Major classes of anti-AChE insecticides; Toxicological consequences of AChE inhibition; Therapy for cholinergic toxicity; Regulatory aspects of anti-AChE insecticides; Acknowledgements; References; 4 Toxicology of Pyrethrins and Synthetic Pyrethroids; Usage and human exposure; Mechanisms of toxicity; Systemic poisoning; Pathology; Paraesthesia and local irritation; Developmental neurotoxicity; Reference values for synthetic pyrethroids; References 5 Toxicology of Miscellaneous InsecticidesIntroduction; Neuroactive insecticides; Insect growth regulators; Plant insecticides; Biochemical insecticides; References; Part II Fungicides, Herbicides and Growth Regulators; 6 Toxicology of Fungicides; Introduction; Halogenated substituted monocyclic aromatics; Dithiocarbamate fungicides; Dithiocarbamates; Ethylene bisdithiocarbamates; Benzimidazole/thiabendazole fungicides; Chloroalkylthiodicarboximides; Azoles; Morpholines; Carboxanilides (oxathiins); Organophosphates; Piperazines; Metallic fungicides; Miscellaneous; Aliphatic aldehydes ThiocarbonatesAntibiotics; Cinnamic acid class; Appendix: Complete listing of fungicides by chemical classes; References; 7 Toxicology of Herbicides; Herbicides; Inorganic herbicides; Bipyridylum herbicides; Phenoxy acid herbicides; Substituted anilines; Ureas and thioureas; Nitriles; Triazines and triazoles; Organic phosphorus herbicides; Defoliants and dessicants, and plant growth regulators; References; Part III Special Types of Pesticide; 8 Microbial Pesticides; Introduction; Regulatory approaches; Toxicity of particular organisms; References; 9 Biocides; Introduction Chemistry of biocides2,2-Dibromo-3-nitrilopropionamide (DBNPA); Methylenebisthiocyanate (MBT); Quarternary ammonium compounds (quats); 2-Bromo-2-nitropropane-1,3-diol (bronopol; BNP); iso-Thiazolones; Tetra-(hydroxymethyl)-phosphonium sulphate (THPS); Peracetic acid (PAA); Glutaraldehyde (GA); References; Part IV Residues; 10 Variability of Residues in Unprocessed Food Items and its Impact on Consumer Risk Assessment; Variability of pesticide residues; Maximum residue limits; Minor crops; Derivation of MRLs; Discovery of residue variability in UK crops; Further studies on variability Implications of variability and derivation of the variability factor

Sommario/riassunto

This book brings together key features of the toxicology and occupational hazards of pesticides and the way their use is regulated in the main trading regions of the world. There are chapters on each of the main groups of insecticides, namely organochlorines, anticholinesterases and pyrethrins and pyrethroids. The book also covers fungicides and herbicides, as well as more specialised agents such as microbial pesticides. The risks and hazards to humans are considered, both occupational and through the consumption of contaminated foodstuffs. Additionally, clinical aspects of pesticide poisonin

Nota di contenuto	Keynote -- A New Contract between Business and Business Analysts -- Part: Quality of Enterprise Models -- Visualizing and Measuring Enterprise Architecture: An Exploratory BioPharma Case -- An Empirical Evaluation of Design Decision Concepts in Enterprise Architecture -- Evaluating Data Quality for Integration of Data Sources -- Part: Change Management and Transformation -- Planning Support for Enterprise Changes -- From Information Systems to Information Services Systems: Designing the Transformation -- Making Process Model Versions Comparable by Quantifying Changes -- Modeling the Transformation of Application Landscapes -- Part: Enterprise Modelling Approaches and Tools for Agility and Flexibility -- From Business Intelligence Insights to Actions: A Methodology for Closing the Sense-and-Respond Loop in the Adaptive Enterprise -- Improving Documentation by Repairing Event Logs -- An Android Tablet Tool for Enterprise Architecture Modeling in Small and Medium-Sized Enterprises -- Part:

Enterprise Modelling and Business Processes -- A Qualitative Research Approach to Obtain Insight in Business Process Modelling Methods in Practice -- A Dynamic Approach to Process Design: A Pattern for Extending the Flexibility of Process Models -- Creating and Updating Personalized and Verbalized Business Process Descriptions -- Part: Enterprise Modelling and Information Systems -- Modeling the Organizational Regulatory Space: A Joint Design Approach -- Integrating Process Modeling Methodology, Language and Tool – A Design Science Approach -- An Experimental Study on the Design and Modeling of Security Concepts in Business Processes -- Part: Enterprise Modelling Cases -- “Product-Process-Machine” System Modeling: Approach and Industrial Case Studies -- A Business and Solution Building Block Approach to EA Project Planning -- A Demonstration Case on Steps and Rules for the Transition from Process-Level to Software Logical Architectures in Enterprise Models.

Sommario/riassunto

This volume constitutes the proceedings of the 6th IFIP WG 8.1 Conference on the Practice of Enterprise Modeling held in November 2013 in Riga, Latvia. The focus of the PoEM conference series is on advances in the practice of enterprise modeling through a forum for sharing knowledge and experiences between the academic community and practitioners from industry and the public sector. The 19 papers accepted were carefully reviewed and selected from 80 submissions. They reflect different topics of enterprise modeling including quality of models, change management and transformation, approaches and tools for agility and flexibility, enterprise modeling and business processes, enterprise modeling and information systems, and enterprise modeling cases. Additionally, one of the two keynotes is also included in this volume.
