Sommario/riassunto	"This volume is a collection of papers presented at the 80th year of the Glass Problems Conference (GPC) in 2018. The GPC continues the tradition of publishing the papers that goes back to 1934. The manuscripts included in this volume are reproduced as furnished by the presenting authors, but were reviewed prior to the presentation and submission by the respective session chairs. These chairs are also the members of the GPC Advisory Board."--
