|-------------------------|--|
| 1. Record Nr. | UNINA9910830525503321 |
| Titolo | Plant epigenetics [[electronic resource] /] / edited by Peter Meyer |
| Pubbl/distr/stampa | Oxford ; ; Ames, Iowa, : Blackwell Pub., 2005 |
| ISBN | 1-280-74835-4 9786610748358 0-470-76214-4 0-470-98862-2 1-4051-7305-X |
| Descrizione fisica | 1 online resource (306 p.) |
| Collana | Annual plant reviews ; ; v. 19 |
| Classificazione | 48.54 |
| Altri autori (Persone) | MeyerP (Peter) |
| Disciplina | 572.8652 580.5 |
| Soggetti | Plant genetic regulation Epigenesis |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Transgene silencing / Ann Depicker, Matthew Sanders and Peter Meyer -- RNA interference : double-stranded RNAs and the processing machinery / Jan M. Kooter -- RNA-directed DNA methylation / Marjori Matzke ... [et al.] -- Heterochromatin and the control of gene silencing in plants / G. Reuter, A. Fischer and I. Hofmann -- When alleles meet : paramutation / Marieke Louwers, Max Haring and Maike Stam -- Genomic imprinting in plants : a predominantly maternal affair / Ueli Grossniklaus -- Nucleolar dominance and rRNA gene dosage control : a paradigm for transcriptional regulation via an epigenetic on/off switch / Nuno Neves, Wanda Viegas and Craig S. Pikaard -- Virus-induced gene silencing / Tamas Dalmay -- MicroRNAs : micro-managing the plant genome / Sandra K. Floyd and John L. Bowman. |
| Sommario/riassunto | With the discovery of RNAi pathways and the histone code, epigenetics has become a popular and fast evolving research topic. Plant science has made a number of elementary contributions to this field, and the common elements of epigenetic systems have linked research groups interested in plant, fungal and animal systems. This volume provides a comprehensive overview epigenetic mechanisms and biological |

processes in plants, illustrating the wider relevance of this research to work in other plant science areas and on non-plant systems. It discusses recent advances in our knowledge
