Titolo	Regression with social data [[electronic resource]] : modeling continuous and limited response variables // Alfred DeMaris
Pubbl/distr/stampa	Hoboken, NJ, : Wiley-Interscience, c2004
ISBN	1-280-25215-4 9786610252152 0-470-24703-7 0-471-67755-8 0-471-67756-6
Descrizione fisica	1 online resource (562 p.)
Collana	Wiley series in probability and statistics
Disciplina	519.5 519.5/36 519.536
Soggetti	Regression analysis Social sciences - Statistics - Methodology Statistics - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 512-520) and index.
Nota di contenuto	Regression with Social Data; Contents; Preface; 1. Introduction to Regression Modeling; 2. Simple Linear Regression; 3. Introduction to Multiple Regression; 4. Multiple Regression with Categorical Predictors: ANOVA and ANCOVA Models; 5. Modeling Nonlinearity; 6. Advanced Issues in Multiple Regression; 7. Regression with a Binary Response; 8. Advanced Topics in Logistic Regression; 9. Truncated and Censored Regression Models; 10. Regression Models for an Event Count; 11. Introduction to Survival Analysis; 12. Multistate, Multiepisodic, and Interval-Censored Models in Survival Analysis Appendix A. Mathematics Tutorials Appendix B. Answers to Selected Exercises; References; Index
Sommario/riassunto	An accessible introduction to the use of regression analysis in the social sciences Regression with Social Data: Modeling Continuous and Limited Response Variables represents the most complete and fully

integrated coverage of regression modeling currently available for graduate-level behavioral science students and practitioners. Covering techniques that span the full spectrum of levels of measurement for both continuous and limited response variables, and using examples taken from such disciplines as sociology, psychology, political science, and public health, the author succe
