

1. Record Nr.	UNINA9910830656303321
Titolo	Magnesium alloys and technology [[electronic resource] /] / edited by K. U. Kainer ; translation by Frank Kaiser
Pubbl/distr/stampa	Weinheim, : DGM, : Wiley-VCH GmbH, c2003
ISBN	1-280-52084-1 9786610520848 3-527-60596-7 3-527-60204-6
Descrizione fisica	1 online resource (295 p.)
Altri autori (Persone)	KainerK. U
Disciplina	380.145620112 620.187
Soggetti	Magnesium alloys
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Magnesium - Alloys and Technology; Preface; Content; 1 The Current State of Technology and Potential for further Development of Magnesium Applications; 2 Die-Casting Magnesium; 3 Vacuum Die-Casting of Magnesium Parts with High Pressure; 4 Squeeze-Casting and Thixo-Casting of Magnesium Alloys; 5 Deformation of Magnesium; 6 Manufacturing and Potential of Extruded and Forged Magnesium Products; 7 High-Temperature Properties of Magnesium Alloys; 8 High-Tech Machining of Magnesium and Magnesium Composites; 9 Joining Magnesium Alloys 10 Rapid Solidification and Special Processes for Processing Magnesium Alloys 11 Fibre-Reinforced Magnesium Composites; 12 Particle-Reinforced Magnesium Alloys; 13 Corrosion and Corrosion Protection of Magnesium; 14 Magnesium Corrosion - Processes, Protection of Anode and Cathode; 15 Nickel-Phosphor Alloy Coatings for Magnesium without External Current; 16 Recycling of Magnesium Alloys; Index
Sommario/riassunto	The need for light-weight materials, especially in the automobile industry, created renewed interest in innovative applications of magnesium materials. This demand has resulted in increased research and development activity in companies and research institutes in order

to achieve an improved property profile and better choice of alloy systems. Here, development trends and application potential in different fields like the automotive industry and communication technology are discussed in an interdisciplinary framework.
