Sommario/riassunto	A resource of fun games for parents or teachers to help young children learn social and motor skills Barbara Sher, an expert occupational therapist and teacher, has written a handy resource filled with games to play with young children who have Autistic Spectrum Disorder (ASD) or other sensory processing disorders (SPD). The games are designed to

help children feel comfortable in social situations and teach other basic lessons including beginning and end, spatial relationships, hand-eye coordination, and more. Games can also be used in regular classrooms to encourage inclusion.
