

1. Record Nr.	UNINA9910830744003321
Titolo	Bayesian networks and probabilistic inference in forensic science
Pubbl/distr/stampa	[Place of publication not identified], : Wiley, 2006
ISBN	0-470-09175-4 0-470-09174-6
Collana	Statistics in practice Bayesian networks and probabilistic inference in forensic science
Disciplina	363.2501/519542
Soggetti	Bayesian statistical decision theory - Graphic methods Uncertainty (Information theory) - Graphic methods Forensic sciences - Graphic methods Mathematical Statistics Mathematics Physical Sciences & Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	The logic of uncertainty -- The logic of Bayesian networks -- Evaluation of scientific evidence -- Bayesian networks for evaluating scientific evidence -- DNA evidence -- Transfer evidence -- Aspects of the combination of evidence -- Pre-assessment -- Qualitative and sensitivity analyses -- Continuous networks -- Further applications.
