Sommario/riassunto

Following on from previous publications in 1997, 2000 and 2003, the Deutsche Forschungsgemeinschaft (German Research Foundation) presents its fourth "Funding Ranking", an overview of the distribution of awards to universities and non-university research institutions in Germany. The scope of the report has increased considerably compared to previous editions. Alongside the report's central indicator - DFG awards per individual research institution - the document also covers a wide range of additional indicators regarding publicly financed research in one of the world's leading industrial coun
