Sherin, Stephen R. Marder -- Cognitive-behavioural interventions / Suzanne Jolley and Philippa Garety -- Management, rehabilitation, stigma / Wulf Rossler.
Sommario/riassunto	The first book in a new series from the World Psychiatric Association, Schizophrenia: current science and clinical practice presents recent information on the diagnosis, neurobiological foundations, and management of schizophrenia. It evaluates the findings obtained with modern techniques like magnetic resonance imaging, genetics and network analyses. The book reviews the importance of neurocognitive functioning in schizophrenia and its predictive value for functional capacity. It covers the key areas of early recognition, prevention,

rehabilitation and stigma. There is also a critic
