

1. Record Nr.	UNINA9910163375903321
Autore	Scharnigg Max
Titolo	Hotel Fatal [[electronic resource]]
Pubbl/distr/stampa	Herder Verlag, 2010
ISBN	3-451-33428-3
Descrizione fisica	1 online resource (140 p.)
Disciplina	910.46
Soggetti	Hotels -- Guidebooks Hotels -- Pictorial works Resorts -- Guidebooks
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Sommario/riassunto	»Hotel Fatal« ist das Hotel, das jeder kennt. Mit feinem Humor erzählt Autor Max Scharnigg von den Widrigkeiten des Hotelaufenthalts: von straff gespannten Leintuchsystemen, die allenfalls Platz für eine Scheckkarte, niemals jedoch für den müden Hotelgast bieten, von den Geheimnissen der Minibar und den Überraschungen des Hotelfrühstücks. Für die Suche nach dem perfekten Hotel hält der Autor, der selbst passionierter Hotelgast ist, hilfreiche Tipps, Checklisten und amüsante Anekdoten aus den Hotels dieser Welt bereit. Ob geschäftlich oder privat: »Hotel Fatal« ist der unentbehrliche Reisebegleiter.

2. Record Nr.	UNINA9910830879903321
Titolo	Barley [[electronic resource]] : production, improvement, and uses // edited by Steven E. Ullrich
Pubbl/distr/stampa	Ames, Iowa, : Wiley-Blackwell, 2011

Descrizione fisica	1 online resource (673 p.)
Collana	World Agriculture Series ; ; v.11
Altri autori (Persone)	UllrichSteven E
Disciplina	633.1/6 633.16
Soggetti	Barley - Genetics Barley - Genetic engineering Barley - Physiology Barley - Utilization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Adaptation, distribution, and marketing of barley -- Barley morphology, taxonomy, related species, and origin theories -- Barley genome organization, mapping, and synteny -- Genome analysis: the state of knowledge of barley genes -- Cytogenetics and molecular cytogenetics of barley: a model cereal crop with a large genome -- Application of molecular genetics and transformation to barley improvement -- Barley germplasm conservation and resources -- Barley breeding history, progress, objectives, and technology, Europe, North America, Australia, Near East, North Africa, Latin America -- Cultural practices: focus on major barley producing regions, Europe, Russian Federation, Ukraine, and Kazakhstan, North America, west Asia and North Africa from Turkey to Morocco, Australia -- Abiotic stress in barley: problems and solutions -- Biotic stress in barley: disease problems and solutions -- Biotic stress in barley: insect problems and solutions -- Biochemistry, physiology, structure, and genetics of barley

kernel development -- Biochemistry, physiology, and genetics of germination in barley -- Malting and brewing uses of barley -- Feed uses of barley -- Food uses of barley -- New selection criteria and methods in adapting barley to a changing world.

Sommario/riassunto

Barley is one of the world's most important crops with uses ranging from food and feed production, malting and brewing to its use as a model organism in molecular research. The demand and uses of barley continue to grow and there is a need for an up-to-date comprehensive reference that looks at all aspects of the barley crop from taxonomy and morphology through to end use. Barley will fill this increasing void. Barley will stand as a must have reference for anyone researching, growing, or utilizing this important crop.
