Sommario/riassunto	Praise for Liberating Learning ""Moe and Chubb have delivered a truly stunning book, rich with the prospect of how technology is already revolutionizing learning in communities from Midland, Pennsylvania to Gurgaon, India. At the same time, this is a sobering telling of the realpolitik of education, a battle in which the status quo is well defended. But most of all, this book is a call to action, a call to unleash the power of technological innovation to create an education system worthy of our aspirations and our childrens' dreams."" -Ted Mitchell, CEO of the New Schools Venture Fun
