Sommario/riassunto	"Building services engineering : smart and sustainable design for health and wellbeing covers the design practices of existing engineering building services and how these traditional methods integrate with newer, smarter developments. These new developments include areas such as smart ventilation, smart glazing systems, smart batteries, smart lighting, smart soundproofing, smart sensors and meters. Combined, these all amount to a healthier lifestyle for the people living within these indoor climates. With over one hundred fully worked examples and tutorial questions, Building services engineering : smart and sustainable design for health and wellbeing encourages the reader to consider sustainable alternatives within their buildings in order to create a healthier environment for users"--

Sommario/riassunto	Iran, the Green Movement and the USA presents the paradox that the USA faces in dealing with Iran over its nuclear armament: negotiate, and legitimize Ahmadinejad's otherwise troubled presidency; resort to sanctions or military strikes, and altogether destroy the budding civil rights campaign of the Green Movement. Either way, as leading Iranian

scholar Hamid Dabashi argues, the Islamic Republic will become even stronger.
