

1. Record Nr.	UNINA9910831036403321
Autore	Burbank Jack L
Titolo	Wireless networking [[electronic resource]] : understanding internetworking challenges // Jack L. Burbank ... [et al.]
Pubbl/distr/stampa	Hoboken, N.J., : John Wiley & Sons Inc., 2013
ISBN	1-118-59078-3 1-118-59080-5
Descrizione fisica	1 online resource (1 p.)
Classificazione	TEC061000
Altri autori (Persone)	BurbankJack L
Disciplina	004.6
Soggetti	Internetworking (Telecommunication) Computer networks Wireless communication systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"This book focuses on providing a detailed and practical explanation of key existing and emerging wireless networking technologies and trends,while minimizing the amount of theoretical background information. The book also goes beyond simply presenting what the technology is, but also examines why the technology is the way it is, the history of its development, standardization, and deployment. The book also describes how each technology is used, what problems it was designed to solve, what problems it was not designed to solve., how it relates to other technologies in the marketplace, and internetworking challenges faced withing the context of the Internet, as well as providing deployment trends and standardization trends. Finally, this book decomposes evolving wireless technologies to identify key technical and usage trends in order to discuss the likely characteristics of future wireless networks"--
