

1. Record Nr.	UNINA9910831046803321
Titolo	Stable isotope probing and related technologies [[electronic resource] /] / edited by J. Colin Murrell, Andrew S. Whiteley
Pubbl/distr/stampa	Washington, DC, : ASM Press, c2011
ISBN	1-68367-118-X 1-283-03448-4 9786613034489 1-61344-265-3 1-55581-689-4
Descrizione fisica	1 online resource (366 p.)
Altri autori (Persone)	MurrellJ. C (J. Colin) WhiteleyAndrew S
Disciplina	572.8 579.17
Soggetti	Molecular probes Stable isotope tracers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; Preface; I. METHODOLOGY; II. APPLICATIONS OF STABLE ISOTOPE PROBING; III. RELATED STABLE ISOTOPE TECHNIQUES; Index
Sommario/riassunto	This comprehensive, carefully edited book, featuring contributions from world leaders in the development and application of these technologies, is the first to present stable isotope probing (SIP) and its related technologies in a single volume. It is recommended not only for students and researchers in environmental microbiology, but also for those who can apply these cutting-edge technologies to such fields as genomics, biotechnology, and medical microbiology.
