

1. Record Nr.	UNINA9910831167603321
Titolo	The veterinary dental patient : a multidisciplinary approach // edited by Jerzy Gawor and Brook Niemiec
Pubbl/distr/stampa	Hoboken, New Jersey : , : John Wiley & Sons, Incorporated, , [2021] ©2021
ISBN	1-118-97468-9 1-118-97469-7 1-118-97467-0
Descrizione fisica	1 online resource
Disciplina	636.089763
Soggetti	Veterinary medicine Veterinary dentistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- List of Contributors -- Preface -- Acknowledgments -- About the Companion Website -- Part I General Considerations: How to Start Dentistry -- Chapter 1 Establishing a Dental Presence within a General Veterinary Practice -- 1.1 Introduction -- 1.2 General Considerations: How to Begin Offering Dentistry -- 1.3 Education -- 1.4 Promotion -- 1.5 Equipment Considerations -- 1.6 Dental Operatory -- 1.7 Ergonomy, Organization, and Functionality -- 1.8 How to Choose the Proper Equipment -- 1.9 Power Dental Equipment -- 1.10 Dental Instrumentation -- Chapter 2 Marketing and Communication in Veterinary Dentistry -- 2.1 Introduction -- 2.2 Compliance -- 2.3 To Sell Is Human -- 2.4 Making Persuasive Recommendations -- 2.5 Communication Skills -- 2.6 Marketing Dental Services -- 2.7 Conclusion -- References -- Chapter 3 Teaching Veterinary Dentistry -- 3.1 Introduction -- 3.2 Veterinary Dentistry in Europe's University Curricula -- 3.3 How Is Veterinary Dentistry Taught in Universities? What Is Missing? -- 3.4 Veterinary Dental Education Today -- 3.5 Examples of Teaching -- 3.6 Student Chapters -- 3.7 Postgraduate Education and Specialization -- 3.8 Veterinary Dental Specialists -- 3.9

Veterinary Dental Education in the Future -- References -- Chapter 4
Distribution of Tasks Around the Dental Patient in General Practice:
Receptionists, Technicians, and Other Veterinary Team Members -- 4.1
Introduction -- 4.2 Receptionists -- 4.3 Kennel Assistants -- 4.4
Veterinary Care Assistants -- 4.5 Credentialed Veterinary
Technicians/Nurses -- 4.6 Veterinarians -- 4.7 Pet Owners -- 4.8
Conclusion -- References -- Chapter 5 Prophylactic Program for Oral
Health -- 5.1 Introduction -- 5.2 Regular Dental Examinations
(and cleanings) -- 5.3 Established Regular Oral Home Care -- 5.4
Conclusion -- References.
Chapter 6 Nutrition, Oral Health, and Feeding Dental Patients -- 6.1
Introduction -- 6.2 Modifications of the Oral Cavity Microbiome -- 6.3
Current Nutritional Strategies for Oral Microflora Modification -- 6.4
Elimination of Dental Plaque by Nutritional Products -- 6.5 Inhibition
of Calculus Formation -- 6.6 Veterinary Oral Health Council Seal
of Acceptance -- 6.7 Role of Chewing in Passive Hygiene -- 6.8
Conclusion -- References -- Chapter 7 Antimicrobials in Veterinary
Dentistry -- 7.1 Introduction -- 7.2 Oral Microbiota of Dogs and Cats
-- 7.3 Antimicrobial Use in Human Dentistry -- 7.4 Antimicrobials
in Veterinary Dentistry -- 7.5 Prophylaxis for Patients with Orthopedic
Implants -- 7.6 Periodontal Disease Control -- 7.7 Plaque Control --
7.8 Infection Control -- References -- Chapter 8 Dental Patient Welfare
-- 8.1 Introduction -- 8.2 What Is Animal Welfare? -- 8.3 Modern
Animal Welfare Needs Assessment -- 8.4 Five Freedoms and Five
Animal Welfare Needs -- 8.5 Measuring Quality of Life -- 8.6
Prevalence of Dental Disease -- 8.7 Dental Disease Associations
with Compromised Animal Welfare Needs -- 8.8 Physiological Signs
of Stress -- 8.9 Behavior Changes -- 8.10 Client Education Matters --
8.11 Welfare Issues Surrounding the Veterinary Visit, Handling
Techniques, and Procedural Design -- 8.12 Welfare Implications
of Anesthesia-Free Dentistry -- 8.13 Economic Consequences
of Improved Welfare Outcomes -- 8.14 Conclusion -- References --
Part II The Dental Patient -- Chapter 9 Local, Regional, and Systemic
Complications of Dental Diseases -- 9.1 Introduction -- 9.2 Oral
Health Impacts General Health -- 9.3 Oronasal Communication/Fistulas
-- 9.4 Periapical Lesions -- 9.5 Pathologic Fracture -- 9.6 Ocular
Damage -- 9.7 Oral Cancer -- 9.8 Osteomyelitis -- 9.9 Systemic
Complications of Oral Diseases -- 9.10 Conclusion -- References.
Chapter 10 Hereditary Oral Disorders in Purebred Dogs and Cats --
References -- Chapter 11 Pain Management in the Dental Patient --
11.1 Introduction -- 11.2 Impact of Oral Disease and Pain
on Nutrition/Food Intake and Quality of Life -- 11.3 Present and Future
Challenges in Pain Management for the Veterinary Dental Patient --
11.4 Physiology of Pain -- 11.5 Dental Nociception, Inflammation,
and Hypersensitivity -- 11.6 Causes of Dental and Orofacial Pain --
11.7 Assessment and Recognition -- 11.8 Treatment -- References --
Chapter 12 Anesthesia of the Dental Patient -- 12.1 Introduction --
12.2 Anesthesia Record Keeping -- 12.3 Patient History and Physical
Examination -- 12.4 Basic Laboratory Testing -- 12.5 Anesthetic
Management -- 12.6 Special Patient Presentations -- References --
Chapter 13 The Dental Patient and Its General Conditions: Cardiac
Disease, Diabetes Mellitus, Pregnancy, History of Seizures, and
Brachycephalic Syndrome -- 13.1 Patients with Cardiac Disease -- 13.2
Dilated Cardiomyopathy in Dogs -- 13.3 Mitral Valve Insufficiency
in Dogs -- 13.4 Hypertrophic Cardiomyopathy in Cats -- 13.5 Patients
with Diabetes Mellitus -- 13.6 Pregnant Patients -- 13.7 Patients
with a History of Seizures -- 13.8 Brachycephalic Patients --
References -- Chapter 14 Ophthalmic Considerations in the Veterinary

Dental Patient -- 14.1 Introduction -- 14.2 Ophthalmic Manifestations of Dental Disease -- 14.3 Maxillofacial Trauma -- 14.4 Ophthalmic Care During Dental Surgery -- 14.5 Combined Oral and Ocular Surgery Considerations -- 14.6 Conclusion -- References -- Chapter 15 Oral Health in the Context of Other Planned Surgeries -- 15.1 Introduction -- 15.2 Pathways Linking Oral Disease to Remote Locations -- 15.3 Guidelines for the Veterinarian -- References -- Chapter 16 Systemic Diseases Influencing Oral Health and Conditions -- 16.1 Introduction. 16.2 Genetic and Developmental Disorders -- 16.3 Systemic Diseases -- References -- Chapter 17 Common Situations of Malpractice and Mistakes, and How Best to Avoid Them -- 17.1 Introduction -- 17.2 Anesthesia -- 17.3 Oral Exam and Diagnostics -- 17.4 Improper Therapy and Iatrogenic Damage -- 17.5 Client Communication -- References and Further Reading -- Chapter 18 Dentistry Through Life: Pediatric and Geriatric Dentistry -- 18.1 Pediatric Dentistry -- 18.2 Geriatric Dentistry -- References -- Part III Dentistry in Daily Practice: What Every Veterinarian Should Know -- Chapter 19 Management of the Dental Patient -- 19.1 Identifying Problems -- 19.2 First Consultation or Discussion with the pet owner -- 19.3 Additional Consultations: Internal Medicine, Cardiologist, Neurologist, Anesthesiologist -- 19.4 Day of Surgery -- 19.5 Follow-Up -- 19.6 What Every Vet Should Know About Dental Problems -- References and Further Reading -- Chapter 20 Professional Dental Cleaning -- 20.1 Introduction -- 20.2 Procedure -- 20.3 Key Points -- References -- Chapter 21 Oral and Maxillofacial Surgery: What's the Difference? -- 21.1 Introduction -- 21.2 Pain Management -- 21.3 Infection Control -- 21.4 Treatment Planning -- 21.5 Four-Handed Surgery -- 21.6 Structures and Anatomy -- 21.7 Techniques, Instruments, and Materials -- 21.8 Wound Closure -- 21.9 Biopsy -- 21.10 Conclusion -- References -- Chapter 22 Extraction Techniques and Equipment -- 22.1 Introduction -- 22.2 Nonsurgical (Closed) Extractions -- 22.3 Extraction of Multirrooted Teeth -- 22.4 Surgical (Open) Extractions -- References -- Chapter 23 Oral Emergencies -- 23.1 Introduction -- 23.2 Selected Topics Related to Oral Emergencies and Maxillofacial Surgery -- 23.3 Most Common Emergency Procedures -- References -- Chapter 24 Feline Dentistry -- 24.1 Introduction -- 24.2 Preoperative Actions. 24.3 Perianesthetic Hazards -- 24.4 Surgery -- 24.5 Postoperative Challenges -- 24.6 Imaging and Radiography -- 24.7 Brachycephalic Breeds -- 24.8 Oral Neoplasms -- 24.9 High-Rise Syndrome -- 24.10 The Cat-Friendly Clinic -- 24.11 Caudal Stomatitis -- 24.12 Tooth Resorption -- 24.13 Feline Orofacial Pain Syndrome (FOPS) -- 24.14 Juvenile Periodontal Diseases -- 24.15 Eosinophilic Granuloma Complex -- 24.16 Pyogranuloma Secondary to Traumatic Dental Occlusion -- 24.17 Common Procedures -- References -- Part IV When to Call the Specialist -- Chapter 25 A Brief Introduction to Specific Oral and Dental Problems that Require Specialist Care -- 25.1 Introduction -- 25.2 Skills and Services -- 25.3 Cases -- Further Reading -- Chapter 26 How to Cooperate with a Specialist -- 26.1 Introduction -- 26.2 What You Should Do -- 26.3 What to Expect from the Specialist -- 26.4 Conclusion -- Useful Algorithms for the Management of Oral Problems -- Appendix A How to Cooperate with a Specialist -- Anti-inflammatory Drugs -- Analgesics -- Anesthetics/Sedatives -- Appendix B Appendix B Instruments Handling and Sharpening -- B.1 Introduction -- B.2 Sterilization -- B.3 Sharpening -- B.4 Maintenance of Power Equipment -- Radiography Equipment -- Ultrasonic Scalers -- Handpieces -- Compressor -- References -- Appendix C Abbreviations and Dental Charts -- Appendix D List of Hereditary Problems and Breed

Predispositions in Dogs and Cats -- Appendix E Tolerance of Malocclusion and Dental Abnormalities in Dogs -- Appendix F Assisted Feeding in Dental Patients -- Index -- EULA.

Sommario/riassunto

"Veterinary dentistry is the field of dentistry applied to the care of animals. It is the art and science of prevention, diagnosis, and treatment of conditions, diseases, and disorders of the oral cavity, the maxillofacial region, and its associated structures as it relates to animals. Preventative care, and many dental procedures, can be carried out by general practitioners, rather than by being referred to a specialist. There is little coverage of dentistry in the veterinary degree, by many CE and CPD courses are available"--
