

1. Record Nr.	UNINA9910831186103321
Titolo	Hydrogen bonding and transfer in the excited-state [[electronic resource] /] / editors, Ke-Li Han, Guang-Jiu Zhao
Pubbl/distr/stampa	Hoboken, N.J., : Wiley, 2010
ISBN	1-282-88886-2 9786612888861 0-470-66914-4 0-470-66925-X
Descrizione fisica	1 online resource (1002 p.)
Altri autori (Persone)	HanKe-Li ZhaoGuang-Jiu
Disciplina	541.226 572/.33
Soggetti	Hydrogen bonding
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Volume I; Volume II; Index
Sommario/riassunto	This book gives an extensive description of the state-of-the-art in research on excited-state hydrogen bonding and hydrogen transfer in recent years. Initial chapters present both the experimental and theoretical investigations on the excited-state hydrogen bonding structures and dynamics of many organic and biological chromophores. Following this, several chapters describe the influences of the excited-state hydrogen bonding on various photophysical processes and photochemical reactions, for example: hydrogen bonding effects on fluorescence emission behaviors and photoisomerization; the rol
