Sommario/riassunto

The works of Robert Schwarz (born 1951) are at home in the world. The artist himself lives in the Gutenberg city of Mainz. For decades he deals with the literature of antiquity, the baroque, the classical and 19th century, he chooses for his purposes texts or text fragments. Often the artist interprets texts in his own way as a visual artist. His profession consists of painting with the litho stone, an extremely complex process that requires many printing processes, in rare cases up to 40, and only in small to very small editions is documented.

Sommario/riassunto

Sir Oliver Franks served as British Ambassador to the US between 1948 and 1952. This analysis reveals a great deal about the condition of relations between Britain and America, the mechanics of co-operation and the impact of a singular individual on international relations.
