Descrizione fisica	1 online resource
Soggetti	History / World History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>&lt;div&gt;&lt;i&gt;World History-A Genealogy&lt;/i&gt; charts the history of the discipline through twenty-five in-depth conversations with historians whose work has shaped the field of world history in fundamental ways. These conversations, which took place over a period of twenty years for the world history journal &lt;i&gt;Itinerario&lt;/i&gt;, cover these historians' lives, work, and views of the academy in general and the field of world history in particular. An extensive introduction distills the most important developments in the field from these conversations, and sheds light on what these historians have in common, as well as-perhaps more importantly-what separates them.</p> <p>&lt;/div&gt;</p>
