Sommario/riassunto	<p>This book collects Thomas Risse's most important articles together in a single volume. Covering a wide range of issues – the end of the Cold War, transatlantic relations, the "democratic peace," human rights, governance in areas of limited statehood, Europeanization, European identity and public spheres, most recently comparative regionalism – it is testament to the breadth and excellence of this highly respected International Relations scholar's work. The collection is organized thematically – domestic politics and international relations, international sources of domestic change, and the diffusion of ideas and institutions – and a brand new introductory essay provides additional coherence. This text will be of key interest to scholars and students of International Relations, European Politics, and Comparative Politics.
