Sommario/riassunto	In this book, you will examine the moral and ethical issues that exist within law enforcement. This book will also familiarize you with the basic history, principles, and theories of ethics. These concepts will then be applied to the major components of the criminal justice system: policing, the courts, and corrections. Discussion will focus on personal values, individual responsibility, decision making, discretion, and the structure of accountability. Specific topics covered will include core values, codes of conduct, ethical dilemmas, organizational consequences, liability, and the importance of critical thinking. By the end of this book, you will be able to distinguish and critically debate contemporary ethical issues in law enforcement.
