**Sommario/riassunto**

In this, the sequel to his critically acclaimed and controversial *The End of Homework*, John Buell extends his case against homework. Arguing that homework robs children-and parents-of unstructured time for play and intellectual and emotional development, *Closing the Book on Homework* offers a convincing case for why homework is an outgrowth of broader cultural anxieties about the sanctity of work itself. After the publication of Buell's previous book, many professional educators portrayed reducing homework as a dangerous idea, while at the same time parents and teachers incre

Sommario/riassunto	Current demographic trends raise new questions, challenges and controversies. Comparing demographic trends in Europe and the NAME-region (North Africa and the Middle East), this book demonstrates how population change interacts with changing economic landscapes, social distinctions and political realities. A variety of drivers contribute to demographic change in the various regions and countries considered, such as family policies, economic realities, the impact of educational differentials and the attitudes towards marriage. On the macro-level the new trends are restructuring the age composi
