Results of a Fifty-Year Experiment in Political Economy
; Chapter 22: Results of Another Fifty-Year Experiment in Political Economy
; Chapter 23: Pity the Poor Japanese
Part V - The Political Economy of Crisis

Sommario/riassunto

<DIV>An unflinching critical analysis of government is contained in this work, which distills complex economic and political issues for the layperson. Combining an economist's analytical scrutiny with an historian's respect for empirical evidence, the book attacks the data on which governments base their economic management and their responses to an ongoing stream of crises. Among the topics discussed are domestic economic busts, foreign wars, welfare programs such as social security, the arts of political leadership, the intrusive efforts of governments to protect people from themselves, and

Sommario/riassunto

The Best Evidence Rule, contained in Article X of the Federal Rules of Evidence (Rules 1001-1008) and state counterparts, is a Rule that requires a party seeking to prove the contents of a writing, recording, or photograph to produce the original (or a duplicate) or account for its non-production. Through a series of cases and hypotheticals drawn from actual cases, this chapter gives readers a roadmap for how to address any Best Evidence Rule issue in practice. Faculty materials also

available: In addition to the free, open learning materials for students listed above, this eLangdell chapter includes a teacher's manual. Faculty and staff at CALI member schools can access these materials by logging in to eLangdell with a cali.org username and password. Contact CALI.
